

not remedied by the State. The inconsistencies relate to the following components of the State's submittal in conformance with section 118(c) of the CWA and 40 CFR Part 132: aquatic life and human health criteria, antidegradation, variances, total maximum daily loads, the procedures for evaluating the need for permit limits on specific chemicals, the procedures for evaluating the need for limits on whole effluent toxicity, water quality based effluent limits below the level of quantification, and compliance schedules. Based on our review to date, EPA believes that, with the above exceptions, the submittal by Wisconsin is consistent with the Guidance. Today, EPA is soliciting public comment regarding all aspects of its June 13, 2000 letter. In particular, EPA solicits comments on the provisions identified in the June 13, 2000 letter as being inconsistent with the CWA and the Guidance, on EPA's proposed course of action if Wisconsin fails to remedy those inconsistencies, and on EPA's belief that the remainder of Wisconsin's submittal is consistent with the Guidance. EPA's letter to Wisconsin also describes the provisions of the Guidance that EPA would identify in a final rule as applying to discharges in the Great Lakes Basin in Wisconsin if the identified inconsistencies are not addressed by the State. EPA may decide to identify in such a rule the provisions described in EPA's letter to the State, or other relevant provisions of the Guidance that EPA determines upon completion of this process to be appropriate. EPA broadly solicits comment regarding what provisions of the Guidance would be appropriate for EPA to identify in such a rule.

During the next 90 days, EPA intends to continue working with Wisconsin to address the inconsistencies identified in the June 13, 2000 letter. If Wisconsin fails to remedy any of the inconsistencies identified in the letter, EPA will publish a notice in the **Federal Register** identifying the disapproved elements and the corresponding portions of Part 132 that will apply to waters within the Great Lakes Basin in Wisconsin.

Dated: June 13, 2000.

Francis X. Lyons,

Regional Administrator, Region 5.
