

effectiveness and planning of future campaigns.

*Affected Public:* Residents (15 years and older) of telephone-equipped households in the U.S.

*Annual Burden Hours:* 1,000.

*Number of Respondents:* 4,500.

*Responses Per Respondent:* 1.

*Average Burden Per Response:* 13.3 Minutes.

*Frequency:* At roughly 3-month intervals.

#### SUPPLEMENTARY INFORMATION:

##### Summary of Information Collection

These three surveys will serve multiple purposes. They will gauge recruitment-age youth's and their influencers' awareness of, familiarity with, attitudes about and feelings toward the Air Force. These measures will be made at roughly 3-month intervals during the course of the current USAF television advertising campaign, giving insight into the communication initiative's ongoing performance. The surveys will allow direct comparison of target youth and influential adult thinking about factors affecting recruitment decision-making. Findings from these surveys of the civilian population also will be compared with similar data to be gathered from the internal USAF population at approximately the same time, providing a valuable head-to-head comparison of civilians' and Air Force people's perceptions of what the Air Force does and why a young person should want to join.
