

The EPA's response costs total approximately \$607,294.89 through November 30, 2001. The Settling Defendants have agreed to pay \$460,000, with the allocation to each party described in a proposed Consent Decree and Partial Consent Decree. All subsequent costs incurred have been paid pursuant to Administrative Orders on Consent with United Park City Mines.

Under the proposed settlement, the Settling Defendants have agreed not to contest the authority of the United States to enter into the settlement or to implement or enforce its terms. In return, and upon payment of the amounts agreed upon, the Settling Defendants will receive a covenant from EPA not to sue them for additional past response costs at the Site.

DATES: For thirty (30) days following the date of publication of this Notice, the EPA will receive written comments relating to the past costs allocated settlement agreement for the Site. The EPA will consider all comments received and may modify or withdraw its consent to the agreement if comments received disclose facts or considerations that indicate that the agreement is inappropriate, improper, or inadequate.

ADDRESSES: The EPA's response to any comments, the proposed agreement and additional background information relating to the agreement is available for public inspection at the EPA Superfund Record Center, 999 18th Street, Suite 300, 5th Floor, in Denver, Colorado. Comments and requests for copies of the proposed Consent Decree and Partial Consent Decree should be addressed to Maureen O'Reilly, Enforcement Specialist, Environmental Protection Agency—Region 8, Mail Code 8ENF—RC, 999 18th Street, Suite 300, Denver, Colorado 80202–2466, and should reference the Richardson Flat Tailings Site, Park City, Utah.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and

Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Well-Integrated Screening and Evaluation for Women across the Nation (WISEWOMAN) Reporting System—Extension—(0920-0612) National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In response to the Secretary of Health and Human Services' Continuous Improvement Initiative, the WISEWOMAN program examines ways in which service delivery can be improved for select populations. WISEWOMAN focuses on reducing cardiovascular disease risk factors among at-risk women. Title XV of the Public Health Service Act, Section 1509, originally authorized the Secretary of the Department of Health and Human Services to establish up to three WISEWOMAN demonstration projects for this purpose. Through Congressional appropriations language, the CDC WISEWOMAN program is now allowed to fund up to 15 projects. Currently, WISEWOMAN funds 15 projects, which at full implementation are expected to screen approximately 30,000 women annually for cardiovascular disease risk factors. The program targets women already participating in the National

Breast and Cervical Cancer Early Detection Program (NBCCEDP) and provides screening for select cardiovascular disease risk factors (including elevated cholesterol, hypertension and abnormal blood glucose levels), lifestyle interventions, and medical referrals as required in an effort to improve cardiovascular health among participants.

The CDC proposes to collect and analyze baseline and follow-up data (12 months post enrollment) from the 15 funded projects. These data, called the minimum data elements (MDE's), include demographic and risk factor information about the women served in each of the funded projects and information concerning the number and type of intervention sessions attended. Funded projects will compile the data from their existing databases and report the MDE's to CDC in April and October of each year. The MDE provides an assessment of how effective WISEWOMAN is at reducing the burden of cardiovascular disease risk factors among participants. All information collected as part of the WISEWOMAN evaluation will be used to assess the cost-effectiveness and the impact WISEWOMAN has on reducing cardiovascular disease risk factors. The evaluation will demonstrate how WISEWOMAN can obtain more complete health data on vulnerable populations, promote public education of disease incidence and risk-factors, improve the availability of screening and diagnostic services for under-served women, ensure the quality of services provided to women and develop strategies for improved interventions.

The CDC also proposes to collect programmatic data for all WISEWOMAN programs. Programmatic data includes information related to grantee management, public education and outreach professional education service delivery, cost, and an assessment of how well each program is meeting their stated objectives.

All required data will be submitted electronically to RTI International, the contractor that is conducting the WISEWOMAN evaluation. MDE and cost data will be submitted to RTI twice a year. Because certain demographic data has already been collected as part of NBCCEDP, the additional burden on grantees will be modest. There is no cost to the respondents other than their time.
