

22 cubic feet per second (cfs) (minimum hydraulic capacity of the turbine) and 140 cfs (maximum hydraulic capacity of the turbine).

o. In addition to publishing the full text of this notice in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this notice, as well as other documents in the proceeding (e.g., license application) via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document (P-2544). A copy of the application is typically available to be viewed at the Commission in the Public Reference Room. At this time, the Commission has suspended access to the Commission's Public Reference Room due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19) issued by the President on March 13, 2020. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or (202) 502-8659 (TTY).

You may also register online at <https://ferconline.ferc.gov/ferconline.aspx> to be notified via email of new filings and issuances related to this or other pending projects.

For assistance, contact FERC Online Support.

p. Procedural Schedule:

The application will be processed according to the following preliminary Hydro Licensing Schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Issue Deficiency Letter (if necessary).	January 2022.
Issue Scoping Document 1 for comments.	May 2022.
Comments on Scoping Document 1 Due.	July 2022.
Issue Scoping Document 2.	August 2022.
Issue Notice of Ready for Environmental Analysis.	August 2022.

q. Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: January 10, 2022.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Southeastern Power Administration

Intent To Revise Power Marketing Policy Georgia-Alabama-South Carolina System of Projects

AGENCY: Southeastern Power Administration, DOE.

ACTION: Notice of intention to begin a public process.

SUMMARY: Pursuant to its Procedure for Public Participation in the Formulation of Marketing Policy, published in the **Federal Register** of July 6, 1978, Southeastern Power Administration (Southeastern) intends to revise the Georgia-Alabama-South Carolina System of Projects marketing policy by including provisions regarding renewable energy certificates (RECs). The current power marketing policy was published on December 28, 1994, for the Georgia-Alabama-South Carolina System, and is reflected in contracts for the sale of system power, which are maintained in the Southeastern headquarters office. Southeastern solicits written comments and proposals in formulating the proposed marketing policy revision.

DATES: Comments and proposals must be submitted on or before March 15, 2022.

ADDRESSES: Written comments or proposals should be submitted to Virgil G. Hobbs III, Administrator & Chief Executive, Southeastern Power Administration, 1166 Athens Tech Road, Elberton, GA 30635-6711, (706) 213-3800, Comments@sepa.doe.gov.

FOR FURTHER INFORMATION CONTACT: Leon Jourlmon IV, General Counsel, (706) 213-3800, Comments@sepa.doe.gov.

SUPPLEMENTARY INFORMATION: A "Final Power Marketing Policy Georgia-Alabama-South Carolina System of Projects" was developed and published in the **Federal Register** on December 28, 1994, 59 FR 66957, by Southeastern. The policy establishes the marketing area for system power and addresses the utilization of area utility systems for essential purposes. The policy also addresses wholesale rates, resale rates, and conservation measures, but does not address RECs.

Under section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), Southeastern is responsible for the transmission and disposition of electric power and energy from reservoir projects operated by the Department of the Army. Furthermore, Southeastern must transmit and dispose of such

power and energy in such manner as to encourage the most widespread use at the lowest possible rates to consumers consistent with sound business principles. Rate schedules are drawn having regard to the recovery of the cost of producing and transmitting such electric energy.

The Georgia-Alabama-South Carolina System consists of ten projects: Allatoona, Buford, Carters, Hartwell, J.S. Thurmond, Millers Ferry, R.B. Russell, R.F. Henry, West Point, and W.F. George. The power from the projects currently is marketed to Preference Customers located in the service areas of Southern Company, PowerSouth Energy Cooperative, Duke Energy Carolinas, Santee Cooper, and Dominion Energy South Carolina.

Southeastern has been using the Generation Attribute Tracking System (GATS) provided through PJM Environmental Information Services, Inc., for the Kerr-Philpott System of Projects. The attributes are unbundled from the megawatt-hour of energy produced and recorded onto a certificate. These certificates may be used by electricity suppliers and other energy market participants to comply with relevant state policies and regulatory programs and to support voluntary "green" electricity markets. Southeastern is considering using the similar M-RETS® product or another product for distributing certificates to current Preference Customers with allocations of power from the Georgia-Alabama-South Carolina System.

The REC tracking system Southeastern selects should be capable of tracking environmental attributes used for voluntary claims in all states, provinces, and territories in North America.

Upon formulating a proposed revision to the Georgia-Alabama-South Carolina System marketing policy to address RECs, Southeastern will publish the proposal in the **Federal Register** and begin a sixty-day comment period pursuant to its Procedures for Public Participation in the Formulation of Marketing Policy.

Signing Authority

This document of the Department of Energy was signed on January 4, 2022, by Virgil G. Hobbs III, Administrator & Chief Executive for Southeastern Power Administration, pursuant to delegated authority from the Secretary of Energy. That document, with the original signature and date, is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register

Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on January 11, 2022.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2021-0146; FRL-8682-06-OCSPF]

Certain New Chemicals or Significant New Uses; Statements of Findings for September 2021

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Toxic Substances Control Act (TSCA) requires EPA to publish in the **Federal Register** a statement of its findings after its review of certain TSCA notices when EPA makes a finding that a new chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment. Such statements apply to premanufacture notices (PMNs), microbial commercial activity notices (MCANs), and significant new use notices (SNUNs) submitted to EPA under TSCA. This document presents statements of findings made by EPA on such submissions during the period from September 1, 2021 to September 30, 2021.

FOR FURTHER INFORMATION CONTACT:

For technical information contact: Rebecca Edelstein, Chemical Control Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: 202-564-1667; email address: Edelstein.rebecca@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitters of the PMNs addressed in this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2021-0146, is available at <http://www.regulations.gov> or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.

II. What action is the Agency taking?

This document lists the statements of findings made by EPA after review of notices submitted under TSCA section 5(a) that certain new chemical substances or significant new uses are not likely to present an unreasonable risk of injury to health or the environment. This document presents statements of findings made by EPA during the period from September 1, 2021 to September 30, 2021.

III. What is the Agency's authority for taking this action?

TSCA section 5(a)(3) requires EPA to review a TSCA section 5(a) notice and make one of the following specific findings:

- The chemical substance or significant new use presents an unreasonable risk of injury to health or the environment;
- The information available to EPA is insufficient to permit a reasoned evaluation of the health and environmental effects of the chemical substance or significant new use;
- The information available to EPA is insufficient to permit a reasoned evaluation of the health and environmental effects and the chemical substance or significant new use may present an unreasonable risk of injury to health or the environment;
- The chemical substance is or will be produced in substantial quantities, and such substance either enters or may
