Title: Department of Veterans Affairs (VA) Post-Separation Transition Assistance Program (TAP) Assessment Longitudinal Survey.

OMB Control Number: 2900–0864.

Type of Review: New collection.

Abstract: This collection effort is the second phase of the PSTAP and participants are respondents of the original collection under the subject control number approved on 4 Apr 19. The PSTAP Longitudinal Survey will be implemented by VA to assess how the TAP training for Transitioning Servicemembers (TSMs) prepares Veterans for civilian life and its effects on long-term Veteran outcomes. This new information collection request (ICR) will be conducted once per year and is designed as a longitudinal survey in conjunction with a cross sectional survey previously submitted to OMB. The survey population will include servicemembers who participated in the cross-sectional survey and voluntarily agreed to participate in the longitudinal survey. VA will use email, other electronic communications and mail methods to administer the survey, limiting the burden on respondents. The survey will be administered to gauge the long-term effectiveness of the Transition Assistance Program (TAP) by: (1) Examining the relationship between attendance in TAP courses and the use of VA Benefits; (2) analyzing the effect of participation in TAP courses on the long-term outcomes of Veterans in the broad life domains of employment, education, health and social relationships, financial, social connectivity and overall satisfaction and well-being, and; (3) identifying areas of improvement for TAP and the broader transition process to guide training and/or operational activities aimed at enhancing the quality of service provided to transitioning service members, Veterans, their families and caregivers.

Affected Public: Individuals.

Estimated Annual Burden: 1,478 hours.

Estimated Average Burden per Respondent: 18.5 minutes.

Frequency of Response: Annual.

Estimated Number of Respondents: 4,795.

By direction of the Secretary.
