Title: Annual State Report on Verification of Supplemental Nutrition Assistance Program (SNAP) Participation.

OMB Control Number: 0584–0605.

Summary of Collection: SNAP regulations at 7 CFR 273.16 require that State agencies disqualify an individual who has committed an intentional program violation (IPV). Paragraph 7 CFR 273.16(e)(8) requires that these individuals “be disqualified in accordance with the disqualification periods and procedures in paragraph (b) of this section” (273.16(b)). Paragraph 7 CFR 273.16(i) requires State agencies to report information concerning each individual disqualified for an IPV to the disqualified recipient database, the electronic Disqualified Recipient System (eDRS), and to use eDRS data to determine the eligibility of individual applicants prior to certification. SNAP regulations at 7 CFR 272.14 require that each State agency establish a system to verify and ensure that benefits are not issued to individuals who are deceased, and that data source is the Social Security Administration’s (SSA) Death Master File. The information required for the Annual State Report on Verification of SNAP Participation is obtained by validating that the State had the appropriate systems in place and followed procedures currently mandated at 7 CFR 272.14 and 7 CFR 273.16 for the preceding fiscal year.

Need and Use of the Information: The information required for the Annual State Report on Verification of SNAP Participation is obtained by validating that the State agency had the appropriate systems in place and followed procedures currently mandated at 7 CFR 272.14 and 7 CFR 273.16 for the preceding fiscal year. State agencies must annually confirm, by stating in one email to their FNS Regional SNAP Program Director, that the appropriate systems were in place in the State to meet the requirements of regulations at 7 CFR 272.14 and 273.16(i)(4), and that they conducted the matches required by these regulations. States are required to submit their Section 4032 reports to the FNS Regional SNAP Director by March 31 each year for the preceding Federal fiscal year. 7 CFR 272.1(f) mandates that State agencies are required to retain all records associated with the administration of SNAP for no less than 3 years.

Title: Uniform Grant Application Package for Discretionary Grant Programs.

Form Number: SF–424 Form, SF–LLL, FNS–908, FNS–887.

OMB Number: 0584–0512.

Expiration Date: July 31, 2022.

Type of Request: Revision of a currently approved collection.

Abstract: FNS has a number of discretionary grant programs. (Consistent with the definition in 2 CFR part 200, the term “grant” as used in this notice includes cooperative agreements.) The authorities for these grants vary and will be cited as part of each grant application solicitation. The purpose of the revision to the currently approved collection for the Uniform Grant Application Package for Discretionary Grant Programs is to continue the authority for the established uniform grant application package and to update the number of collection burden hours, accounting for noncompetitive grants issued by FNS into this information collection request package. FNS is revising the uniform collection package to allow and account for all of FNS’ competitive and noncompetitive discretionary grant programs to collect information from grant applicants that are needed to evaluate and rank applicants and protect the integrity of the grantee selection process. This revision also encompasses the submittal of associated State Plan information and the use of program-specific forms, including but not limited to, Form FNS–887 Farm to

School Coversheet, the Farm to School Baseline Report, and Farm to School Final Report. Under certain criteria, all FNS discretionary grant programs will be eligible to use the uniform grant application package. Before soliciting applications for a competitive or noncompetitive discretionary grant program, FNS will decide whether the uniform grant application package will meet the needs of that grant program. If FNS decides to use the uniform grant application package, FNS will note in the grant solicitation that applicants must use the uniform grant application package and that the information collection has already been approved by OMB. If FNS decides not to use the uniform grant application package or determines that it needs grant applicants to provide additional information not contained in the uniform package, then FNS will publish at least a 30-day notice soliciting comments on its proposal to collect different or additional information before making the grant solicitation, if not already discussed in this notice. This notice discusses and gives 60 day notice to the public that State Plan information will be collected in association with grants covered by this information collection and program-specific supplemental forms will also be used, including but not limited to, Form FNS-887 Farm to School Coversheet, the Farm to School Baseline Report, and Farm to School Final Report. State Plans can discuss a wide range of information associated with the use of grant funds including, but not limited to, the goals of the project, the implementation plan, associated schedule for implementation and expected and actual results. Applicants complete Form FNS-887, Farm to School Coversheet, when applying for a farm to school grant. Farm to School grantees will complete the new Farm to School Baseline Report at the start of their grant. The purpose is to collect information about farm to school activities at the start of the grant, which will be compared to the final grant report. In the new Farm to School Final Report, grantees will provide a final update on their specific project activities and respond to the same series of questions from the baseline report in order to capture changes from the beginning of the grant project to the end.

The uniform grant application package will include: General information and instructions; a checklist; a requirement for the program narrative statement describing how the grant goals and objectives will be reached; the Standard Form (SF) 424 series forms (SF-424A and SF-424B)

that request basic grant project information, budget information, and a disclosure of lobbying activities certification (SF-LLL); and the Standardized Performance Progress Report (FNS-908). The revised information collection covered by this notice is related to the requirements for the program narrative statement. The requirements for the program narrative statement described in 2 CFR part 200, Appendix I and will apply to all types of grantees—State and Local governments, Indian Tribal organizations (ITOs), Business such as Non-Profit organizations, Institutions of Higher Education, and For-Profit organizations. The information collection burden related to the SF-424 series, and the lobbying certification forms have been separately approved by OMB under OMB Control Numbers: 0584-0512, December 31, 2022.

This collection also encompasses requirements for States to prepare and submit State Plans as part of, or in follow-up to, the application process for grants covered under OMB number 0584-0512, as well as the use of program-specific forms including but not limited to Form FNS-887 Farm to School Coversheet, the Farm to School Baseline Report, and Farm to School Final Report. This collection has two different affected public, State, Local & Tribal government as well as Business-for-profit and not-for-profit organizations. The respondent type for Business are usually Higher Education and Universities.

FNS is requesting 6,155 total respondents (5,517 for SLT and 638 for Business), we are also seeking 429,994 total annual burden hours and 139,229 total annual responses and since generic clearance are granted three years of burden upfront, this renewal is requesting 1,500,000 burden hours and 417,687 annual responses for next three years. This includes 428,954 total burden hours for reporting and 41,598 total burden hours for recordkeeping.

The estimates below are for pre and post-award reporting and post-award recordkeeping for competitive and non-competitive grant opportunities for State, Local or Tribal government (known as Indian Tribal Organizations or ITOs). Below are the breakdowns for each affected public, for each type of grants available (competitive and non-competitive) for the reporting and recordkeeping burden activities involved before and then after grants are awarded to these affected publics.

MATTERS TO BE CONSIDERED: The Chemical Safety and Hazard Investigation Board (CSB) announces that it will convene a public meeting to consider the Loy-Lange Final Investigation Report. The report details the investigation into a fatal incident that occurred on April 3, 2017, in St. Louis, Missouri. A massive steam explosion caused a pressure vessel weighing approximately 2,000 pounds to launch itself into the air. The initial explosion killed one worker and critically injured another. The vessel flew several hundred feet and landed nearby on another company's property, fatally injuring three members of the public.

CSB staff will present its final report with corresponding findings and recommendations. Staff presentations are preliminary and are intended to allow the Board to consider in a public forum the issues and factors involved in this case.

To submit public comments for the record please email us at public@csb.gov. Public comments sent in advance may be addressed at the meeting.
