

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing an extension without change of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before April 17, 2023.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link www.reginfo.gov/public/do/PRAMain to access the site. Find this information collection request (ICR) by selecting "Department of Education" under "Currently Under Review," then check the "Only Show ICR for Public Comment" checkbox. Reginfo.gov provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the "View Information Collection (IC) List" link. Supporting statements and other supporting documentation may be found by clicking on the "View Supporting Statement and Other Documents" link.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Donna Bussell, 202-453-6813.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Demonstration Grants for Indian Children and Youth Program Grant Application Package (1894-0001).

OMB Control Number: 1810-0722.

Type of Review: An extension without change of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 100.

Total Estimated Number of Annual Burden Hours: 3,000.

Abstract: The Office of Indian Education (OIE) of the U.S. Department

of Education (ED) requests an extension of clearance for the Indian Education Demonstration Grant Application, a competitive discretionary grant program authorized under title VI, part A, of the Elementary and Secondary Education Act of 1965, as amended (ESEA). The purpose of the Demonstration program is to provide financial assistance to projects that develop, test, and demonstrate the effectiveness of services and programs to improve the educational opportunities and achievement of Indian students in preschool, elementary, and secondary schools. The grant applications submitted for it are evaluated on the basis of how well an applicant addresses the selection criteria and are used to determine applicant eligibility and amount of award for projects selected for funding.

This collection is being submitted under the Streamlined Clearance Process for Discretionary Grant Information Collections (1894-0001). Therefore, the 30-day public comment period notice will be the only public comment notice published for this information collection.

Dated: March 13, 2023.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[GDO Docket No. EA-339-C]

Application for Renewal of Authorization To Export Electric Energy; Shell Energy North America (US), L.P.

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: Shell Energy North America (US), L.P. (the Applicant or Shell Energy) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before April 17, 2023.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Steven Blazek, (240) 474-2780, electricity.exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export. (16 U.S.C. 824a(e)). On June 13, 2022, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) under Delegation Order No. S1-DEL-S3-2022-2 and Redelegation Order No. S3-DEL-GD1-2022.

On May 5, 2008, DOE issued Order No. EA-339 authorizing Shell Energy to transmit electric energy from the United States to Canada as a power marketer. DOE subsequently renewed Shell Energy's authorization to export electric energy from the United States to Canada as a power marketer in Order No. EA-339-A (May 9, 2013), and again in Order No. EA-339-B (May 30, 2018). On December 2, 2022, Shell Energy filed an application with DOE (Application or App) for renewal of their export authority for an additional five-year term. App at 1.

In its Application, Shell Energy states that it "does not own or control any transmission or distribution facilities" and "does not have a franchised service area." App at 2. Shell Energy seeks to renew its authority to "export electric energy acquired from U.S. generating sources to Canada over international electric transmission facilities." App at 3. Shell Energy represents that it "will purchase the power to be exported from electric utilities, qualifying small power production facilities, cogeneration facilities and federal power marketing agencies" and that "electric energy exported pursuant to the authorization requested in this Renewal Application, whether on a firm or interruptible basis, will be purchased in bilateral, voluntary transactions from the surplus and available electric energy of the generator/seller." App at 4. Therefore, "Shell Energy's exports to Canada will not impair the sufficiency of the electric power supply within the U.S." *Id.*

The existing international transmission facilities to be utilized by

the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. See App at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the address provided above. Protests should be filed in accordance with Rule 211 of FERC's Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning Shell Energy's Application should be clearly marked with GDO Docket No. EA-339-C. Additional copies are to be provided directly to David L. Smith, Regulatory Advisor DF—Shell Energy, 1000 Main, Suite 1200, Houston, TX 77002-6336, (713) 767-5542, dave.l.smith@shell.com and Catherine McCarthy, Partner—Bracewell LLP, 2001 M. Street NW, Suite 900, Washington, DC 20036-3310, (202) 828-5839, Catherine.mccarthy@bracewell.com.

A final decision will be made on the requested authorization after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.

Copies of this Application will be made available, upon request, by accessing the program website at <https://www.energy.gov/gdo/pending-applications> or by emailing Electricity.Exports@hq.doe.gov.

Signing Authority: This document of the Department of Energy was signed on March 13, 2023, by Maria Robinson, Director, Grid Deployment Office, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on March 14, 2023.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[GDO Docket No. EA-380-A]

Application for Renewal of Authorization To Export Electric Energy; Freepoint Commodities LLC

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: Freepoint Commodities LLC (the Applicant or Freepoint) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before April 17, 2023.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Steven Blazek, (240) 474-2780, electricity.exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export. (16 U.S.C. 824a(e)). On June 13, 2022, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) under Delegation Order No. S1-DEL-S3-2022-2 and Redelelegation Order No. S3-DEL-GD1-2022.

On September 29, 2011, in Order No. EA-380, the DOE authorized Freepoint to export electricity from the United States to Canada as a power marketer for a period of ten years ending on September 29, 2021. On September 30, 2022, Freepoint filed an application with DOE (Application or App) for

renewal of their export authority for an additional ten-year term. App. at 1.

Freepoint acknowledged in its Application that it did not seek to renew its authorization to export electricity to Canada prior to the lapse of the authorization granted in Order No. EA-380. Since the expiration of that authorization, as indicated in its quarterly filings with the Department (which it continued to file, notwithstanding the expiration of the authorization), Freepoint has not exported any electricity from the United States. Freepoint seeks renewal of its authorization at this time because it anticipates entering one or more transactions that could involve exports of electricity to Canada. App at 1-2.

In its Application, the Applicant states that it "does not own or control any electric generation or transmission facilities, nor does it hold a franchise or service territory for the transmission, distribution, or sale of electric power." App at 3. Freepoint further states that it "has purchased, or will purchase, the power that may be exported to Canada from wholesale generators, electric utilities, federal power marketing agencies, and the markets administered by independent system operators (ISOs) and regional transmission organizations (RTOs)." *Id.*

Freepoint "plans to export electric power over authorized transmission interconnections between Canada and the United States. Transmission to the point of delivery will be arranged by Freepoint over any authorized existing international electric transmission facilities (including those set out in Attachment 1), and over any international transmission facilities that may be approved by the Department in the future." App at 4.

Therefore, "Freepoint's export of electric energy to Canada does not and will not impair the sufficiency of electric supply within the United States nor does it or will it impede or tend to impede the coordination in the public interest of facilities subject to the jurisdiction of the Federal Energy Regulatory Commission (FERC)." App at 2.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. See App at 4; Attachment 1.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the address provided above. Protests should be filed in
