SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to request a three-year extension of a currently approved collection for forms C–700, Private Construction Projects; C–700(R), Multifamily Residential Projects; and C–700(SL), State and Local Government Projects. These forms are used to conduct the Construction Progress Reporting Surveys (CPRS) to collect information on the dollar value of construction put in place by private companies, individuals, private multifamily residential buildings, and state and local governments.

The Census Bureau is the preeminent collector and provider of timely, relevant and quality data about the people and economy of the United States. The Form C–700, Private Construction Projects, collects construction put in place data for nonresidential projects owned by private companies or individuals. The Form C–700(R), Multifamily Residential Projects, collects construction put in place data for private multifamily residential buildings. The Form C–700(SL), State and Local Government Projects, collects construction put in place data for state and local government projects.

The Census Bureau uses the information from these surveys to publish the value of construction put in place series. Published estimates are used by a variety of private business and trade associations to estimate the demand for building materials and to schedule production, distribution, and sales efforts. They also provide various

government agencies with a tool to evaluate economic policy and to measure progress towards established goals. For example, Bureau of Economic Analysis staff use data to develop the construction components of gross private domestic investment in the gross domestic product. The Federal Reserve Board and the Department of the Treasury use the value in place data to predict the gross domestic product, which is presented to the Board of Governors and has an impact on monetary policy.

II. Method of Collection

An independent systematic sample of projects is selected each month according to predetermined sample rates. Once a project is selected, it remains in the sample until completion of the project. Preprinted forms are mailed monthly to respondents to fill in current month data and any revisions to previous months. Some respondents are later called by a Census interviewer and report data over the phone. Having the information available from a database at the time of the interview greatly helps reduce the time respondents spend on the phone. Interviews are scheduled at the convenience of the respondent, which further reduces their burden.

Certain Activated Carbon from the People's Republic of China: Extension of Time Limit for Final Results of Changed Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce

EFFECTIVE DATE: October 6, 2009.

FOR FURTHER INFORMATION CONTACT: Katie Marksberry, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-7906.

SUPPLEMENTARY INFORMATION: On January 27, 2009, the Department of Commerce ("Department") issued its preliminary results for the changed circumstances review of the antidumping duty order of certain activated carbon from the People's Republic of China. See *Certain Activated Carbon from the People's Republic of China: Notice of Initiation and Preliminary Results of Changed Circumstances Review, and Intent to Revoke Order in Part* 74 FR 4736 (January 27, 2009) (*Preliminary Results*). On February 9, 2009, the Department received comments from Applica Consumer Products Inc., an importer of coffeemakers and self-cleaning litter boxes that uses filters. On February 17, 2009, the Department received comments from Calgon Carbon Corporation and Norti Americas Inc.,

petitioners in this proceeding, and also from Rolf C. Hagen (USA) Corp., the requestor of this changed circumstance review. The current deadline for the final results of this review is October 26, 2009.

Extension of Time Limits for Final Results

In our *Preliminary Results*, we indicated, pursuant to 19 CFR 351.216(e), that the Department will issue the final results in the instant changed circumstances review within 270 days after the date on which the changed circumstances review is initiated. Currently, the final results of this changed circumstances review are due October 26, 2009. However, as explained below, the Department determines that good cause exists to extend the time limits for completion of this changed circumstances review. Accordingly, pursuant to 19 CFR 351.302(b), we are extending the time limit by 60 days.

Subsequent to the *Preliminary Results*, the Department received comments from interested parties. Because of those comments, the Department has determined that it requires additional time to analyze the complex issues raised by interested parties regarding the scope exclusion request. Consequently, in accordance with 19 CFR 351.302(b), the Department is extending the time period for issuing the final results in the instant review by 60 days. Therefore, the final results will be due no later than December 25, 2009. As December 25, 2009, is a Federal holiday, our final results will be issued no later than Monday, December 28, 2009.

This notice is published in accordance with sections 751(b) and 777(i) of the Tariff Act of 1930, as amended.

Dated: September 29, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

[Docket T-1-2009]

Foreign-Trade Zone 134—Chattanooga, TN; Application for Temporary/Interim Manufacturing Authority; Termination of Review; Volkswagen Group of America Chattanooga Operations, LLC (Motor Vehicles)

Notice is hereby given that the Foreign-Trade Zones (FTZ) Board staff has terminated its review of the application requesting temporary/interim manufacturing (T/IM) authority with FTZ 134 at the Volkswagen Group of America Chattanooga Operations, LLC (VGACO) facility in Chattanooga, Tennessee. The application was filed on July 10, 2009 (74 FR 34714, 7-17-2009). Substantive comments submitted in opposition to the VGACO application during the public comment period remove the application from eligibility under the specific T/IM standard of "clearly presenting no new, complex, or controversial issues" (see "Proposals to Facilitate the Use of Foreign-Trade Zones by Small and Medium-Sized Manufacturers," 69 FR 17643, 4/5/2004). The review was terminated on September 22, 2009.
