

especially helpful in exposing redundant or potentially inconsistent regulatory requirements. We recognize that commenters using a product line approach may want to make recommendations about rules that are not in our current request for comment. They should do so since the EGRPRA categories are designed to stimulate creative approaches rather than limiting them. We note, in this respect, that NCUA included both its lending and investment rules in its first EGRPRA notice (68 FR 39863, July 3, 2003), and that the same rules are included with this notice as well. The first notice solicited comment on the category of Powers and Activities, while in this notice we are focused on Safety and Soundness issues. Because aspects of both rules fall into each category, we are including them for this second time. There are several other rules, which we have placed in other categories, that also involve safety and soundness. Finally, we note that, as related to state chartered, federally insured credit unions, the inclusion of subpart B of 12 CFR part 748 in this category is a shorthand reference to a number of rules codified elsewhere in our regulations that have a significant safety and soundness impact. Comment is invited on all of these rules.

Specific issues to consider. While all comments are welcome, NCUA specifically invites comment on the following issues:

- *Need for statutory change.* Do any of the statutory requirements underlying these regulations impose redundant, conflicting or otherwise unduly burdensome requirements? Are there less burdensome alternatives?

- *Need and purpose of the regulations.* Are the regulations consistent with the purposes of the statutes that they implement? Have circumstances changed so that the regulation is no longer necessary? Do changes in the financial products and services offered to consumers suggest a need to revise certain regulations or statutes? Do any of the regulations impose compliance burdens not required by the statutes they implement?

- *General approach/flexibility.* Generally, is there a different approach to regulating that NCUA could use that would achieve statutory goals while imposing less burden? Do any of the regulations in this category or the statutes underlying them impose unnecessarily inflexible requirements?

- *Effect of the regulations on competition.* Do any of the regulations in this category or the statutes underlying them create competitive

disadvantages for credit unions compared to another part of the financial services industry?

- *Reporting, recordkeeping and disclosure requirements.* Do any of the regulations in this category or the statutes underlying them impose particularly burdensome reporting, recordkeeping or disclosure requirements? Are any of these requirements similar enough in purpose and use so that they could be consolidated? What, if any, of these requirements could be fulfilled electronically to reduce their burden? Are any of the reporting or recordkeeping requirements unnecessary to demonstrate compliance with the law?

- *Consistency and redundancy.* Do any of the regulations in this category impose inconsistent or redundant regulatory requirements that are not warranted by the purposes of the regulation?

- *Clarity.* Are the regulations in this category drafted in clear and easily understood language?

- *Burden on small insured institutions.* NCUA has a particular interest in minimizing burden on small insured credit unions (those with less than \$10 million in assets). More than half of federally-insured credit unions are small—having \$10 million in assets or less—as defined by NCUA in Interpretative Ruling and Policy Statement 03–2, Developing and Reviewing Government Regulations. NCUA solicits comment on how any regulations in this category could be changed to minimize any significant economic impact on a substantial number of small credit unions.

NCUA appreciates the efforts of all interested parties to help us eliminate outdated, unnecessary or unduly burdensome regulatory requirements.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRL-7868-5]

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule; notice of intent to delete the Southern Maryland Wood Treating Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region III is issuing a notice of intent to delete the Southern Maryland Wood Treating Superfund Site (Site) located in Hollywood, Maryland from the National Priorities

List (NPL) and requests public comments on this notice of intent. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA), is found at Appendix B of 40 CFR part 300, which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). EPA and the State of Maryland, through the Maryland Department of the Environment (MDE), have determined that all appropriate response actions under CERCLA have been completed. However, this deletion does not preclude future actions under CERCLA.

In the "Rules and Regulations" section of today's **Federal Register**, EPA is publishing a direct final rule of deletion of the Southern Maryland Wood Treating Site without prior notice of intent to delete because EPA views this as a noncontroversial deletion and anticipates no adverse comment. EPA has explained its reasons for this deletion in the direct final rule of deletion. If EPA receives no adverse comment(s) on this notice of intent to delete or the direct final rule of deletion, EPA will not take further action. If EPA receives adverse comment(s), EPA will withdraw the direct final rule of deletion and it will not take effect. EPA will, as appropriate, address all public comments in a subsequent final deletion notice based on this notice of intent to delete. EPA will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the Direct Final Rule of Deletion which is located in the "Rules and Regulations" section of this **Federal Register**.

DATES: Comments concerning this Site must be received by March 7, 2005.

ADDRESSES: Written comments should be addressed to: Robert Sanchez, Remedial Project Manager, U.S. EPA Region III (3HS23), 1650 Arch Street, Philadelphia, PA 19103-2029, (215) 814-3451.
