

Rules and Regulations

Federal Register

Vol. 79, No. 85

Friday, May 2, 2014

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

Importation of Cape Gooseberry From Colombia Into the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are amending the fruits and vegetables regulations to allow the importation of cape gooseberry from Colombia into the United States. As a condition of entry, cape gooseberry from Colombia must be subject to a systems approach that includes requirements for establishment of pest-free places of production and the labeling of boxes prior to shipping. The cape gooseberry also must be imported in commercial consignments and accompanied by a phytosanitary certificate issued by the national plant protection organization of Colombia certifying that the fruit has been produced in accordance with the systems approach. This action allows for the importation of cape gooseberry from Colombia into the United States while continuing to provide protection against the introduction of plant pests.

DATES: *Effective Date:* June 2, 2014.

FOR FURTHER INFORMATION CONTACT: Ms. Claudia Ferguson, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1236; (301) 851-2352.

SUPPLEMENTARY INFORMATION:

Background

The regulations in “Subpart—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–66, referred to below as the regulations) prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pests.

Prior to the effective date of this final rule, the regulations only allowed cape gooseberry (*Physalis peruviana*) to be imported into the United States from Colombia if the commodity was treated

with cold treatment for Mediterranean fruit fly (*Ceratitis capitata* or Medfly).

However, the national plant protection organization (NPPO) of Colombia requested that the Animal and Plant Health Inspection Service (APHIS) amend the regulations to allow commercial consignments of cape gooseberry from production sites recognized as free of Medfly in the Bogota Savannah and the neighboring municipalities above 2,200 meters of elevation in the Departments of Boyacá and Cundinamarca without cold treatment.

In response to the request of the NPPO of Colombia, we prepared a commodity import evaluation document (CIED) titled “Recognition of cape gooseberry production sites that are free of Mediterranean fruit fly within a low prevalence area in Colombia Bogota Savannah and the neighboring municipalities above 2,200 meters in the Departments of Boyacá and Cundinamarca.”

Based on the evidence presented in the CIED, on August 16, 2013, we published in the **Federal Register** (78 FR 49972–49975, Docket No. APHIS-2012-0038) a proposed rule¹ to authorize the importation of cape gooseberry from Colombia into the United States without cold treatment, provided that the cape gooseberry were produced in accordance with a systems approach consisting of the following requirements: Production in pest-free areas of production in the Bogota Savannah or the neighboring municipalities above 2,200 meters of elevation in the Departments of Boyacá and Cundinamarca; importation in commercial consignments only; labeling of boxes; phytosanitary inspection; and issuance of a phytosanitary certificate.

We solicited comments concerning our proposal for 60 days ending October 15, 2013. We received two comments by that date. One, from a U.S. importer of cape gooseberry from Colombia, expressed support for the proposed rule. The other, from the NPPO of Colombia, requested several modifications to what it understood to be the provisions of the proposed rule. We discuss this latter comment below.
