

Description: Tariff Cancellation: Notice of Cancellation of Service Agreement No. 4849; Queue No. AA2–169 to be effective 6/1/2018.

Filed Date: 5/7/18.

Accession Number: 20180507–5166.

Comments Due: 5 p.m. ET 5/29/18.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-reg.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: May 7, 2018.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2740–051]

Duke Energy Carolinas, LLC; Notice of Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Protests

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Application Type:* Non-Capacity Amendment of License.

b. *Project No:* P–2740–051.

c. *Date Filed:* April 23, 2018.

d. *Applicant:* Duke Energy Carolinas, LLC (Duke Energy).

e. *Name of Project:* Bad Creek Pumped Storage Project.

f. *Location:* The project is located on the Bad and West Bad Creeks, in Oconee County, South Carolina.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a–825r.

h. *Applicant Contact:* Jeffrey G. Lineberger, Duke Energy, 526 South Church Street, Mail Code EC–12Y, Charlotte, North Carolina 28202, (704) 382–5942.

i. *FERC Contact:* Zeena Aljibury, (202) 502–6065, zeena.aljibury@ferc.gov.

j. *Deadline for Filing Comments, Motions to Intervene, and Protests:* June 07, 2018.

The Commission strongly encourages electronic filing. Please file motions to intervene, protests, comments, or recommendations using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. The first page of any filing should include docket number P–2740–051.

k. *Description of Request:* Duke Energy requests approval to upgrade and refurbish four Francis-type pump-turbines in the powerhouse, replace existing runners with Francis-type pump-turbine runners, and rehabilitate and/or upgrade the remaining components of the pump-turbine runners. Duke Energy states that the upgrades and refurbishment will result in an increase of the Project's maximum hydraulic capacity of less than 15 percent during generation. The turbine installation activities are planned as a multi-year process, with one turbine-runner replacement occurring per year from 2019 through 2023. During the turbine upgrades, the appropriate unit will be dewatered and isolated from head and tail-waters by closing the spherical valves and draft gates, and by sealing the spherical valves and draft tube gates to minimize leakage. Any work which requires the lowering or draining of the upper reservoir will take place during a common system outage planned for 2018. The new pump-turbine runners will pass water at a higher flow rate between the upper and lower reservoirs. The proposed updates will not change the amount of water being transferred between reservoirs or the reservoir level, therefore, water quality is not anticipated to be affected. Additionally, the potential impact on fish resources will be limited to those associated with the fish entrainment by the project turbines and no federally protected species will be impacted. Duke Energy notes the additional capacity and system flexibility will

enhance the project's ability to support Duke Energy's electric system needs.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE, Room 2A, Washington, DC 20426, or by calling (202) 502–8371. This filing may also be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits (P–2740) in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1–866–208–3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502–8659.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Motions to Intervene, or Protests:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to project works that are the subject of the license amendment. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each

representative of the applicant specified in the particular application. If an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

Dated: May 7, 2018.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OLEM-2018-0236; FRL-9977-79-OLEM]

The Hazardous Waste Electronic Manifest System Advisory Board: Request for Nominations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for nominations.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations of qualified candidates to be considered for a three-year appointment to fill one vacancy on the Hazardous Waste Electronic Manifest System Advisory Board (the "Board") for a State Representative member with current experience in collecting manifests from generators and treatment, storage, and disposal facilities (TSDFs), and in tracking manifest data in state tracking systems/databases.

Pursuant to the Hazardous Waste Electronic Manifest Establishment Act (the "e-Manifest Act" or the "Act"), EPA has established the Board to provide practical and independent advice, consultation, and recommendations to the EPA Administrator on the activities, functions, policies and regulations associated with the Hazardous Waste Electronic Manifest (e-Manifest) System.

DATES: Nominations should be received on or before June 11, 2018.

ADDRESSES: Submit your nominations, identified by docket identification (ID) number, EPA-HQ-OLEM-2018-0236, in the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow the online instructions for submitting

comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Fred Jenkins, Designated Federal Officer (DFO), U.S. Environmental Protection Agency, Office of Resource Conservation and Recovery, (MC: 5303P), 1200 Pennsylvania Avenue NW, Washington, DC 20460, Phone: 703-308-7049; or by email: jenkins.fred@epa.gov.

SUPPLEMENTARY INFORMATION: The e-Manifest Act was signed into law on October 5, 2012 (<http://www.gpo.gov/fdsys/pkg/BILLS-112s710enr/pdf/BILLS-112s710enr.pdf>). Under the terms of the e-Manifest Act, 42 U.S.C. 6939(g), EPA is required to establish a national electronic Information Technology (IT) manifest system. This system is to enable users of the uniform hazardous waste manifest forms (EPA Form 8700-22 and Continuation Sheet 8700-22A) to have the option to more efficiently track their hazardous waste shipments electronically, in lieu of the paper manifest, from the point of generation, during transportation, and to the point of receipt by an off-site facility that is permitted to treat, store, recycle, or dispose of the hazardous waste. Electronic manifests obtained from the national system will augment or replace the paper forms that are currently used for this purpose, and that result in substantial paperwork costs and other inefficiencies. Congress intended that EPA develop a system that, among other things, meets the needs of the user community and decreases the administrative burden associated with the current paper-based manifest system on the user community. The EPA estimates e-Manifest will save state and industry users, on average, an annualized \$66 million per year over the first six years of system operation, and more than \$90 million once electronic manifests have been widely adopted. The system will establish a national reporting hub and database for all manifests and shipment data. To ensure that these goals are met, the Act directs EPA to establish the Board to assess the effectiveness of the electronic manifest system and make recommendations to the Administrator for improving the system.

In addition, the e-Manifest Act directs EPA to develop a system that attracts sufficient user participation and service

revenues to ensure the viability of the system. As a result, the Act provides EPA broad discretion to establish reasonable user fees, as the Administrator determines are necessary, to pay costs incurred in developing, operating, maintaining, and upgrading the system, including any costs incurred in collecting and processing data from any paper manifest submitted to the system after the system enters operation. The Board will meet to assess the adequacy and reasonableness of the service fees and, if necessary, make recommendations to the Administrator to adjust the fees accordingly.

The Board will be asked to provide recommendations on important system development matters and on potential increases or decreases to the amount of a service fee determined under the fee structure. Substantial system development planning work is underway. The Agency is utilizing lean start-up product development strategies with agile, user-centered design and development methodologies, and is currently conducting additional system development procurement activities. The Agency expects the initial system deployment to occur on June 30, 2018.

The system will provide the functionality of the current paper manifest process, in a more efficient electronic workflow, and will meet all requirements specified in the e-Manifest Act and e-Manifest Final Rule, which was published on February 7, 2014 (www.epa.gov/e-Manifest). The initial system is envisioned to be a national, electronic system (internet-based) that will enable current users of the manifest form to sign, transmit, archive, and retrieve manifests electronically. The e-Manifest system is further envisioned to allow a fully electronic mobile workflow. The mobile workflow will provide both on-line and off-line capabilities which could enable users to complete an electronic manifest even when internet access is unavailable. EPA envisions that the system will provide all data processing (paper and electronic formats), data storage, and data reporting back out to industry and state users, as well as appropriate public accessibility of data. Finally, e-Manifest aligns with the Agency's E-Enterprise business strategy. E-Enterprise for the Environment is a transformative 21st century strategy—jointly governed by states and EPA—for modernizing government agencies' delivery of environmental protection. Under this strategy, the Agency will streamline its business processes and systems to reduce reporting burden on states and regulated facilities, and improve the effectiveness and efficiency of
