

implications.” “Policies that have federalism implications” is defined in the Executive Order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.”

Under Section 6 of Executive Order 13132, the EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or the EPA consults with State and local officials early in the process of developing the proposed regulation. The EPA also may not issue a regulation that has federalism implications and that preempts State law, unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This notice does not have federalism implications. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132. Thus, the requirements of section 6 of the Executive Order do not apply to this rule. Although section 6 of Executive Order 13132 does not apply to this rule, the EPA did consult with the State of Idaho in developing this notice, as discussed in section IV of this notice.

AGENCY: Environmental Protection Agency.

ACTION: Withdrawal of notice.

SUMMARY: The Environmental Protection Agency (EPA) is withdrawing a notice of January 17, 2001 (66 FR 4021) describing draft plans for providing

additional access to information about the potential off-site consequences of accidental chemical releases from industrial facilities. As part of the Administration's review of recent federal agency actions, we are evaluating the draft plans. When we have completed our review, we will make our plans for providing additional access available for public review.

FOR FURTHER INFORMATION CONTACT: Dorothy McManus, Program Analyst, (202) 564-8606, or Vanessa Rodriguez, Chemical Engineer, (202) 564-7913, Chemical Emergency Preparedness and Prevention Office, Environmental Protection Agency (5104), 1200 Pennsylvania Avenue, NW, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: Off-site consequence analysis (OCA) information is submitted to EPA by facilities subject to the Chemical Accident Prevention Regulations at 40 CFR part 68. Under the Chemical Safety Information, Site Security and Fuels Regulatory Relief Act (CSISSFRA) of 1999, EPA and the Department of Justice (DOJ) last year promulgated a rule making OCA information available to the public in specified ways (see 40 CFR part 1400). CSISSFRA calls on EPA, in consultation with DOJ, to supplement the access provided by the rule. We are now in the process of reviewing the draft plans. When we have completed our review, we will make our plans for providing additional access available for public review.
