[Docket No. NHTSA 2002-13743; Notice 1]

Continental Tire North America Inc., Receipt of Application for Decision of Inconsequential Noncompliance

Continental Tire North America Inc., (Continental) has determined that a total of 159 P265/70R16 AmeriTrac SUV Radial Passenger Tires and 7,131 P265/70R16 ContiTrac SUV Radial Tires do not meet the labeling requirements mandated by Federal Motor Vehicle Safety Standard (FMVSS) No. 109, "New Pneumatic Tires." The noncompliant tires were produced during the periods March 11–24, 2001, and May 14, 2000–March 24, 2001, respectively.

Pursuant to 49 U.S.C. 30118(d) and 30120(h), Continental has petitioned for a determination that this noncompliance is inconsequential to motor vehicle safety and has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports."

This notice of receipt of an application is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the application.

The petitioner argued as follows: FMVSS No. 109 (S4.3.4(b)) requires both the maximum load in kilograms and pounds be molded on the tires sidewall. The rated maximum kilogram load was incorrectly marked 1190 kg rather than 1090 kg. The rated maximum load in pounds was marked correctly. These tires are primarily sold in the domestic replacement market, where the load in pounds would be the predominant consumer unit of measurement.

Continental stated that test results confirm that the subject tires meet other test requirements of FMVSS No. 109 and support the petition of an inconsequential stamping error, which does not effect performance and is not safety related.

Interested persons are invited to submit written data, views, and arguments on the application described above. Comments should refer to the docket number and be submitted to: U.S. Department of Transportation, Docket Management, Room PL–401, 400 Seventh Street, SW., Washington, DC 20590. It is requested that two copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date, will also be filed and will be considered to the extent possible. When the application is granted or denied, the notice will be published in the **Federal Register** pursuant to the authority indicated below. Comment closing date: December 16, 2002.

Authority: (49 U.S.C. 301118, 301120; delegations of authority at 49 CFR 1.50 and 501.8).
