#### Certain Hot-Rolled Carbon Steel Flat Products From Thailand: Final Results and Partial Rescission of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce ("the Department") has conducted an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand produced and/or exported by Sahaviriya Steel Industries Public Company Limited ("SSI"), Nakornthai Strip Mill Public Co., Ltd. ("Nakornthai"), and Siam Strip Mill Public Co., Ltd. ("Siam Strip"). The period of review ("POR") is May 3, 2001, through October 31, 2002. Based on our analysis of comments received, these final results remain unchanged from the Preliminary Results. The final results are listed below in the "Final Results of Review" section.

**EFFECTIVE DATE:** April 13, 2004.

#### FOR FURTHER INFORMATION CONTACT:

Helen Kramer at (202) 482-0405 or Ann Barnett-Dahl at (202) 482-3833, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230.

#### SUPPLEMENTARY INFORMATION:

## Background

On December 8, 2003, the Department published the preliminary results and partial rescission of its administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand. *See Certain Hot-Rolled Steel from Thailand: Preliminary Results and Partial Rescission of Antidumping Duty Administrative Review*, 68 FR 68336 (December 8, 2003) ("Preliminary Results").

We invited parties to comment on the Preliminary Results. On January 8, 2003, we received case briefs from SSI and Nucor Corporation ("the Petitioner"). On January 12, 2003, we received rebuttal briefs from SSI and the Petitioner. A hearing was not requested.

## Partial Rescission

In our preliminary results, we announced our preliminary decision to rescind the review with respect to Nakornthai and Siam Strip because these companies had no entries of hot-rolled steel from Thailand during the POR. *See Preliminary Results*. We have received no new information contradicting the decision. Therefore, we are rescinding the administrative review with respect to Nakornthai and Siam Strip.

## Scope of the Antidumping Duty Order

The products covered by this antidumping duty order are certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4.0 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included within the scope of this order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as

columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTSUS), are products in which: (i) Iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or  
2.25 percent of silicon, or  
1.00 percent of copper, or  
0.50 percent of aluminum, or  
1.25 percent of chromium, or  
0.30 percent of cobalt, or  
0.40 percent of lead, or  
1.25 percent of nickel, or  
0.30 percent of tungsten, or  
0.10 percent of molybdenum, or  
0.10 percent of niobium, or  
0.15 percent of vanadium, or  
0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this review unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, e.g., American Society for Testing and Materials (ASTM) specifications A543, A387, A514, A517, A506).

- Society of Automotive Engineers (SAE)/American Iron & Steel Institute (AISI) grades of series 2300 and higher.

- Ball bearing steels, as defined in the HTSUS.

- Tool steels, as defined in the HTSUS.

- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 2.25 percent.

- ASTM specifications A710 and A736.

- USS abrasion-resistant steels (USS AR 400, USS AR 500).

- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).

- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping

and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to this review is classified in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. #### Analysis of Comments Received

The Department has received comments from SSI and the Petitioner, all of which are addressed in the "Issues and Decision Memorandum" from Joseph A. Spetrini, Deputy Assistant Secretary, Import Administration, to James J. Jochum, Assistant Secretary, Import Administration, dated April 6, 2004 ("Decision Memorandum"), which is hereby adopted by this notice. Attached to this notice as an Appendix is a list of the issues that SSI and the Petitioner have raised and to which we have responded in the *Decision Memorandum*. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in the Department's Central Records Unit, located at 14th Street and Constitution Avenue, NW., Room B-099. In addition, a complete version of the Decision

Memorandum can be accessed directly on the Import Administration Web site at <http://ia.ita.doc.gov/> under the heading **Federal Register Notices**. The paper copy and electronic version of the Decision Memorandum are identical in content.

#### Changes Since the Preliminary Results

Based on our analysis of comments received and findings at verification, our preliminary results remain unchanged.

#### Final Results of

Review We determine that the following dumping margins exist for the period May 3, 2001 through October 31, 2002:

Manufacturer/Exporter	Margin (percent)
SSI .....	0.00

All other entries of the subject merchandise during the POR will be liquidated at the antidumping duty rate in place at the time of entry. The Department will issue appropriate assessment instructions directly to the U.S. Customs and Border Protection ("CBP") within 15 days of publication of these final results of review.

#### Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) For the companies named above, the cash deposit rates will be the rates for these firms shown above, except that, for exporters with *de minimis* rates (i.e., less than 0.5 percent) no deposit will be required; (2) for previously-reviewed producers and exporters with separate rates, the cash deposit rate will be the company-specific rate established for the most recent period for which they were reviewed; and (3) for all other producers and exporters, the rate will be 3.86 percent, the "all others" rate established in the less than fair value investigation (66 FR 49622, September 28, 2001). These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant

entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation, which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 6, 2004.

#### Postponement of Preliminary Determination

On December 17, 2003, the Department published the initiation of the antidumping duty investigation of imports of wooden bedroom furniture from the PRC. For the reasons identified by the Petitioners, and because there are no compelling reasons to deny the request, we are postponing the preliminary determination under section 733(c)(1) of the Act. Therefore, the preliminary determination is now due no later than June 17, 2004. The deadline for the final determination will continue to be 75 days after the date of the preliminary determination.
