FOR FURTHER INFORMATION CONTACT:

Peggy Vyas, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-566-0453; vyas.peggy@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov. Materials can also be viewed at the Reading Room located at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20004. The Docket Center's hours of operations are 8:30 a.m.–4:30 p.m., Monday–Friday (except Federal Holidays). The telephone number for the Docket Center is 202-566-1744.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The EPA published a final rule to regulate the disposal of coal combustion residuals (CCR) from electric utilities as solid waste under RCRA Subtitle D (see 80 FR 21302, April 17, 2015). EPA established national minimum criteria for existing and new CCR landfills and CCR surface

impoundments and all lateral expansions to include location restrictions, design and operating criteria, groundwater monitoring and corrective action, closure requirements and post-closure care, and recordkeeping, notification, and internet posting requirements. Since the final rule, several court decisions have required accelerated closure timelines for many units and forced closures for many units previously categorized as lined. In 2020, EPA published the “Hazardous and Solid Waste Management System: Disposal of CCR; A Holistic Approach to Closure Part B: Alternate Demonstration for Unlined Surface Impoundments Rule” which allows for units to receive variances for unlined surface impoundments (see 85 FR 72506, November 12, 2020). This ICR includes the voluntary action that states may take to obtain permit program approval. With this renewal, this ICR also incorporates the burden currently covered by OMB Control No. 2050-0053.

Form Numbers: None.

Respondents/affected entities:

Business and other for-profit as well as States, Local and Tribal governments.

Respondent's obligation to respond:

Required to obtain or retain a benefit (RCRA Sections 1008, 4004, 4005(a)).

Estimated number of respondents:

730.

Frequency of response: On occasion.

Total estimated burden: 177,498 hours. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$18,347,854, which includes \$10,024,078 annualized labor costs and \$8,323,776 annualized capital or O&M costs.

Changes in estimates: The burden hours are likely to stay substantially the same.

Carolyn Hoskinson,

Director, Office of Resource Conservation and Recovery.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9542-04-OAR]

Final Allocations of Cross-State Air Pollution Rule Allowances From New Unit Set-Asides for 2022 Control Periods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability.

SUMMARY: The Environmental Protection Agency (EPA) is providing notice of the

availability of data on emission allowance allocations to certain units under the Cross-State Air Pollution Rule (CSAPR) trading programs. EPA has completed final calculations for the allocations of allowances from the CSAPR new unit set-asides (NUSAs) for the 2022 control periods and has posted spreadsheets containing the calculations on EPA's website. EPA has also completed calculations for allocations of the remaining 2022 NUSA allowances to existing units and has posted spreadsheets containing those calculations on EPA's website as well.

DATES: May 1, 2023.

FOR FURTHER INFORMATION CONTACT:

Questions concerning this action should be addressed to Jason Kuhns at (202) 564-3236 or kuhns.jason@epa.gov or Andrew Reighart at (202) 564-0418 or reighart.andrew@epa.gov.

SUPPLEMENTARY INFORMATION: Under each CSAPR trading program where EPA is responsible for determining emission allowance allocations, a portion of each state's emissions budget for the program for each control period is reserved in a NUSA (and in an additional Indian country NUSA in the case of states with Indian country within their borders) for allocation to certain units that would not otherwise receive allowance allocations. The procedures for identifying the eligible units for each control period and for allocating allowances from the NUSAs and Indian country NUSAs to these units are set forth in the CSAPR trading program regulations at 40 CFR 97.411(b) and 97.412 (NO_x Annual), 97.511(b) and 97.512 (NO_x Ozone Season Group 1), 97.611(b) and 97.612 (SO₂ Group 1), 97.711(b) and 97.712 (SO₂ Group 2), 97.811(b) and 97.812 (NO_x Ozone Season Group 2), and 97.1011(b) and 97.1012 (NO_x Ozone Season Group 3). Each NUSA allowance allocation process involves allocations to eligible units, termed “new” units, followed by the allocation to “existing” units of any allowances not allocated to new units.

In a notice of data availability (NODA) published in the **Federal Register** on February 27, 2022 (88 FR 12356), EPA provided notice of the preliminary calculations of NUSA allowance allocations for the 2022 control periods and described the process for submitting any objections. EPA received no objections in response to the February 27, 2022 NODA. This NODA concerns the final NUSA allowance allocations, which are unchanged from the preliminary calculations.

The detailed unit-by-unit data and final allowance allocation calculations are set forth in Excel spreadsheets titled

“CSAPR_NUSA_2022_NOx_Annual_Final_Data_New_Units,” “CSAPR_NUSA_2022_NOx_OS_Final_Data_New_Units,” “CSAPR_NUSA_2022_SO2_Final_Data_New_Units,” “CSAPR_NUSA_2022_NOx_Annual_Final_Data_Existing_Units,” “CSAPR_NUSA_2022_NOx_OS_Final_Data_Existing_Units,” and “CSAPR_NUSA_2022_SO2_Final_Data_Existing_Units”, available on EPA’s website at <https://www.epa.gov/csapr/csapr-compliance-year-2022-nusa-nodas>.

EPA notes that an allocation or lack of allocation of allowances to a given unit does not constitute a determination that CSAPR does or does not apply to the unit. EPA also notes that, under 40 CFR 97.411(c), 97.511(c), 97.611(c), 97.711(c), 97.811(c), and 97.1011(c), allocations are subject to potential correction if a unit to which allowances have been allocated for a given control period is not actually an affected unit as of the start of that control period.

(Authority: 40 CFR 97.411(b), 97.511(b), 97.611(b), 97.711(b), 97.811(b), and 97.1011(b).)

Rona Birnbaum,

Director, Clean Air Markets Division, Office of Atmospheric Protection, Office of Air and Radiation.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Production, Import, Export, Recycling, Destruction, Transshipment, and Feedstock Use of Ozone-Depleting Substances (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Production, Import, Export, Recycling, Destruction, Transshipment, and Feedstock Use of Ozone-Depleting Substances (EPA ICR Number 1432.38, OMB Control Number 2060–0170) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through April 30, 2023. Public

comments were previously requested via the **Federal Register** on August 24, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before May 31, 2023.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2022–0706, to EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Robert Burchard, Stratospheric Protection Division, (6205A), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 343–9126; email address: burchard.robert@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through April 30, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on August 24, 2022, during a 60-day comment period (87 FR 51976). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket

Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR covers provisions under the Montreal Protocol on Substances that Deplete the Ozone Layer (Montreal Protocol) and Title VI of the CAA that establish limits on total U.S. production, import, and export of class I and class II ozone-depleting substances (or controlled substances). Production and import of class I controlled substances (chlorofluorocarbons and others) was phased out in the United States. The phaseout includes exceptions for essential uses, critical uses of methyl bromide, quarantine and pre-shipment uses of methyl bromide, previously used material, and material that will be transformed or destroyed. There are also regulations that restrict the use of class II controlled substances and require a gradual reduction in the production and consumption of these chemicals leading to their eventual phaseout. The class II controlled substance phaseout regulations include exceptions for previously used material and material that will be transformed or destroyed.

Form Numbers: 5900–137, 5900–136, 5900–149, 5900–150, 5900–153, 5900–151, 5900–199, 5900–202, 5900–200, 5900–201, 5900–205, 5900–155, 5900–140, 5900–144, 5900–142, 5900–141, 5900–148, 5900–147, 5900–473, 5900–138, 5900–139, 5900–152, 5900–472, 5900–154, 5900–146.

Respondents/affected entities: Producers, importers, exporters, and certain users of ozone-depleting substances; methyl bromide applicators, distributors, and end users including commodity storage and quarantine users.

Respondent’s obligation to respond: Mandatory (CAA sections 114, 603(b), and 604(d)(6)).

Estimated number of respondents: 1,174 (total).

Frequency of response: Quarterly, annually, as needed.

Total estimated burden: 3,022 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$375,086 (per year), includes \$8,250 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 83 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is a result of updated assumptions associated with recordkeeping requirements that are more consistent with other ICRs that cover similar recordkeeping activities (e.g., the HFC Allowance Allocation
