B. Cost-Benefit Analysis

Section 15(a) of the CEA, as amended by Section 119 of the Commodity Futures Modernization Act of 2000 ("CFMA"),¹³ requires the Commission to consider the costs and benefits of its action before issuing an order under the CEA. By its terms, Section 15(a) as amended does not require the Commission to quantify the costs and benefits of an order or to determine whether the benefits of the order outweigh its costs. Rather, Section 15(a) simply requires the Commission to "consider the costs and benefits" of its action.

Section 15(a) of the CEA further specifies that costs and benefits shall be evaluated in light of five broad areas of market and public concern: Protection of market participants and the public; efficiency, competitiveness, and financial integrity of futures markets; price discovery; sound risk management practices; and other public interest considerations. Accordingly, the Commission could in its discretion give greater weight to any one of the five enumerated areas and could in its discretion determine that, notwithstanding its costs, a particular order was necessary or appropriate to protect the public interest or to effectuate any of the provisions or to accomplish any of the purposes of the CEA.

The Commission is considering the costs and benefits of this proposed order in light of the specific provisions of Section 15(a) of the CEA, as follows:

1. *Protection of market participants and the public.* National securities exchanges, OCC and their members who would intermediate ST Gold Options are subject to extensive regulatory oversight.

2. *Efficiency, competition, and financial integrity.* The proposed exemption may enhance market efficiency and competition since it could encourage potential trading of ST Gold Options on markets other than designated contract markets or derivative transaction execution facilities. Financial integrity will not be affected since the ST Gold Options will be cleared by OCC, a DCO and SEC-registered clearing agency, and intermediated by SEC-registered broker-dealers.

3. *Price discovery.* Price discovery may be enhanced through market competition.

4. *Sound risk management practices.* The ST Gold Options will be subject to OCC's current risk-management practices including its margining system.

5. *Other public interest considerations.* The proposed exemption may encourage development of derivative products through market competition without unnecessary regulatory burden.

After considering these factors, the Commission has determined to seek comment on the proposed order as discussed above. The Commission invites public comment on its application of the cost-benefit provision.

Issued in Washington, DC, on April 21, 2008 by the Commission.

David A. Stawick,

Secretary of the Commission.

Dissenting Opinion of Commissioner Bartholomew H. Chilton to Notice of Proposed Order pursuant to Section 4(c) of the CEA which would exempt certain products related to StreetTRACKS Gold Trust Shares traded on a national securities exchange and cleared by the Options Clearing Corporation from provisions of the CEA.

I respectfully dissent from the Commission's issuance of the above-referenced proposed order. Should the CFTC ultimately approve this order, it is my hope and expectation that the SEC similarly will fully exercise its broad exemptive authority under the securities laws to permit futures exchanges to trade products that are economically equivalent to those that are or may be approved for trading on national securities exchanges, and to allow designated clearing organizations to clear such products, to ensure that the futures markets are not competitively disadvantaged with regard to such products. I dissent from today's action, because I do not believe that the proposed order provides sufficient basis for or assurance of such reciprocity in the future.

Bart Chilton,
Commissioner, Commodity Futures Trading Commission.
