SUPPLEMENTARY INFORMATION:

Description: The State PREP has mandatory, formula allotments for state and territories to apply. The process is for states and territories to submit and for ACYF/FYSB to collect their state plans and semi-annual performance progress reports.

Purpose and Use of the Information Collection: The state plan offers information about the proposed state project and has been and will continue to be used as the primary basis to

determine whether or not the project meets the minimum requirements of the legislation for the grant award. There are no changes proposed to the state plan; FYSB is requesting to use these plans for another 3 years.

The Performance Progress Reports are collected semi-annually and inform the monitoring of the grantees’ program design, program evaluation, management improvement, service quality, and compliance with agreed upon goals. ACYF/FYSB has used and will continue to use the information to ensure effective service delivery for program participants. Finally, the data from this collection will be used to report outcomes and efficiencies and will provide valuable information to policy makers and key stakeholders in the development of program and research efforts. Changes are proposed to the Performance Progress Reports and include the addition of information related to equity activities and strategies to mitigate challenges. Information on equity activities will be used to support the FYSB Equity Action Plan objectives and to inform the development of T&TA resources, as needed. The purpose of including strategies to mitigate challenges is to allow grant recipients to demonstrate how they overcome challenges. This information can be used to inform peer to peer sharing.

Respondents: All 52 states and territories that are still eligible to accept their State PREP mandatory, formula allotments for funding.
