DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2237-017]

Georgia Power Company; Notice of Availability of Environmental Assessment

November 9, 2007.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for a New Major License for the Morgan Falls Hydroelectric Project.

The Morgan Falls Project is located in the metropolitan city of Atlanta area on the Chattahoochee River, at river mile 312.6, and about 36 miles downstream from the U.S. Army Corps of Engineers' Buford dam (Lake Sidney Lanier) in Cobb and Fulton Counties, Georgia. The project occupies about 14.4 acres of federal lands within the Chattahoochee River National Recreation Area managed by the National Park Service. Staff has prepared an Environmental Assessment (EA) for the project.

In the EA Commission, staff analyzed the potential environmental effects of relicensing the project and concludes

that issuing a new license for the project, with appropriate environmental measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

Any comments should be filed within 30 days from the date of this notice and should be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please affix Project No. 2237-017 to all comments. Comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link. Project No. P-2237-017.

For further information, please contact Janet Hutzel at (202) 502-8675 or at janet.hutzel@ferc.gov.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP07-405-000]

Texas Gas Transmission, LLC; Notice of Availability of the Environmental Assessment for the Proposed Phase 3 Storage Expansion Project

November 13, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Texas Gas Transmission, LLC (Texas Gas) in the above-referenced docket. Texas Gas proposes to increase the storage capacity of its existing Midland Storage Field by constructing facilities in Hanson and Muhlenberg Counties, Kentucky.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act of 1969. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed Phase 3 Storage Expansion Project, which includes the following wells, pipeline facilities, and expansion/modifications of existing compressor stations:

Midland Gas Storage Field

- Seven new injection/withdrawal wells;
- Six new well pads;
- 80-foot-tall radio tower on an 8-foot by 8-foot concrete pad and 6-foot by 6-foot shelter;

Pipeline Facilities

- 10.5 miles of 30-inch-diameter pipeline from Texas Gas' Hanson Compressor Station to its Midland III Compressor Station;
- Construct 2,900 feet of 16-inch-diameter pipeline extending Texas Gas existing E-9 Lateral pipeline;
- Construct 8 well laterals ranging from 8 to 12 inches in diameter and 450 to 3,000 feet in length;

Midland III Compressor Station

- A new turbine/compressor building;
- A new 5,488 horsepower turbine-driven compressor, including ancillary equipment;
- Control system modifications to allow two existing 1,250-horsepower electric-driven compressors to operate at 1,500-horsepower;
- Retirement of two 2,000-horsepower reciprocating compressor units
- Piping modifications and appurtenant facilities;

Slaughters Compressor Station

- Modification of the existing 12,090-horsepower turbine-driven compressor for a new suction and discharge pressure; The purpose of the proposed Phase 3 Storage Expansion Project is to expand the daily withdrawal and seasonal storage capability of the Midland Gas Storage Field located in Muhlenberg County, Kentucky.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission,

Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426.

Copies of the EA have been mailed to pertinent agencies, libraries and newspapers, parties to this proceeding, and those who have expressed an interest in this project by returning the July 23, 2007, *Notice of Intent to Prepare an Environmental Assessment for the Proposed Texas Gas Storage Expansion Project Phase 3 and Request for Comments on Environmental Issues* mailer, as directed.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426;
- Label one copy of the comments for the attention of the Gas Branch 1, PJ-11.1;
- Reference Docket No. CP07-405-000; and
- Mail your comments so that they will be received in Washington, DC on or before December 14, 2007.

The Commission strongly encourages electronic filing of any comments, interventions, or protests to this proceeding. See 18 CFR 385.2001(a)(1)(iii) and the instructions of the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's guide. Before you can file comments you will need to create a free account, which can be created by clicking on "Login to File" and then "New User Account." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing."

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214). Only intervenors have the right to seek rehearing of the Commission's decision. Anyone may intervene in this proceeding based on this EA. You must file your request to intervene as specified above.¹ You do

not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding the last three digits in the Docket Number field (i.e., CP07-405). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link on the FERC Internet website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notifications of these filings, document summaries and direct links to the documents. Go to the eSubscription link on the FERC Internet website.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF08-3-000]

White River Hub, LLC; Notice of Intent To Prepare an Environmental Assessment for the White River Hub Project and Request for Comments on Environmental Issues

November 9, 2007.

The Federal Energy Regulatory Commission (FERC or Commission) and the U.S. Department of the Interior's Bureau of Land Management (BLM) are evaluating the White River Hub Project, planned by White River Hub, LLC (White River). The project includes construction of about 6.5 miles of new pipeline and related facilities; a new compressor station; and acquisition of about 3 miles of existing pipeline, all in Rio Blanco County, Colorado. As part of this evaluation, the Commission staff (as the lead federal agency for satisfying the requirements of the National

Environmental Policy Act of 1969 [NEPA]) will prepare an environmental assessment (EA) to identify and address environmental impacts that could result from construction and operation of the project. The EA will be prepared with the assistance and cooperation of the BLM's White River Field Office staff in Meeker, Colorado. The Commission and the BLM (Agencies) will use the EA in their respective decision-making processes to determine whether to authorize the planned project.

This Notice describes the project-related facilities and explains the scoping process that the Agencies will use to gather input from the public and interested agencies on the planned project. Your input will help determine the issues that need to be addressed in the EA. **PLEASE NOTE THAT THE SCOPING PERIOD FOR THE PLANNED PROJECT WILL CLOSE ON DECEMBER 10, 2007.**

This Notice is being sent to federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. This includes all landowners who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within distances defined in the Commission's regulations of certain aboveground facilities. We encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern. To ensure that your comments are considered, please follow the instructions in the *Public Participation* section below.

With this Notice, we¹ are asking other federal, state, and local agencies with jurisdiction and/or special expertise with respect to environmental issues in the project area to formally cooperate with us in the preparation of this EA. These agencies may choose to participate once they have evaluated the planned project relative to their responsibilities. Entities that would like to request cooperating agency status should follow the instructions for filing comments described in the *Public Participation* section of this Notice.

If you are a landowner receiving this Notice, you may be contacted by a White River representative about the acquisition of an easement to construct, operate, and maintain the proposed pipeline facilities. The pipeline company would seek to negotiate a mutually acceptable agreement to cover

¹Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion of filing comments electronically.

¹"We," "us," and "our" refer to the environmental staff of the Commission's Office of Energy Projects.
