National Agricultural Statistics Service (NASS)

Title: 2020 Local Foods Marketing Practices Survey—Substantive Change.

OMB Control Number: 0535–0259.

Summary of Collection: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture and also to conduct the Census of Agriculture.

Need and Use of the Information: NASS will collect information about these types of operations to understand conservation practices within the United States in terms of the following: (1) How often are specific conservation practices adopted without assistance, with technical assistance and/or financial assistance. (2) How does adoption evolve over time? What proportion of producers who "try" a given practice continue or expand use over time? How many discontinue the practice? (3) What motivates farmers to initially try a practice and then continue, expand, or discontinue use? The questions reflect a range of factors including conservation need(s), experience(s) of neighbors, financial benefits or costs, producer's time and effort, availability of technical and financial assistance, regulation or conservation compliance, and concern about the environmental quality. The United States Department of Agriculture's Natural Resources Conservation Service has entered into an interagency agreement with NASS to conduct this survey.

Description of Respondents: The 2022 survey will target operations who own or operate cropland as well as confined livestock feeding operations. Operators who have grazing land or forestry land will be done at a later date.

Number of Respondents: 35,200.

Frequency of Responses: Once.

Total Burden Hours: 35,614.
