SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. Does this action apply to me?

This action is directed to the public in general and may be of particular interest to those involved in the manufacture (including import), processing, distribution, use, and disposal of PCE or products containing PCE, related industry trade organizations, non-governmental organizations with an interest in human and environmental health, state and local governments, Tribal Nations, and/or those interested in the assessment or management of risks involving chemical substances and mixtures regulated under TSCA. As such, the Agency has not attempted to describe all the specific entities that this action might apply to. If you need help determining applicability, consult the technical contact listed **FOR FURTHER INFORMATION CONTACT**.

B. What is the Agency's authority for taking this action?

Under TSCA section 6(a) (15 U.S.C. 2605(a)), if the Agency determines through a TSCA section 6(b) risk evaluation that the manufacture, processing, distribution in commerce, use or disposal of a chemical substance presents an unreasonable risk of injury to health or the environment, EPA must by rule apply one or more requirements listed in TSCA section 6(a)(1)–(7) to the extent necessary so that the chemical substance or mixture no longer presents such risk.

C. What action is the Agency taking?

On December 18, 2024, EPA released the final risk management rule for PCE titled “Perchloroethylene (PCE); Regulation Under the Toxic Substances Control Act (TSCA)” (89 FR 103560, December 18, 2024) (FRL–8329–01–OCSPP) (hereinafter “PCE final rule”).

Following its publication, EPA received several petitions for review related to the rule. These petitions for review were consolidated in the U.S. Court of Appeals for the Fifth Circuit. The Court granted a temporary abeyance in the litigation through August 21, 2025.

On May 12, 2025, EPA filed a declaration with the Court advising that the Agency intends to reconsider the PCE final rule through further rulemaking. In that declaration, the Agency expressed its intent to solicit early stakeholder input. EPA is now soliciting early stakeholder input regarding its intended reconsideration of the rule. EPA invites public comment on requirements and implementation of the PCE final rule (89 FR 103560), particularly on the topics described in Unit II. The information received in response to this notice will inform EPA's considerations of these provisions.

This review is being done in accordance with applicable law, Executive Orders, and Administration policies, including Executive Order 14219 “Ensuring Lawful Governance and Implementing the President's ‘Department of Government Efficiency’ Deregulatory Initiative” (90 FR 10583, February 19, 2025) and EPA's Powering the Great American Comeback Initiative Pillar I: Clean Air, Land, and Water for Every American.

D. What should I consider as I prepare my comments?

1. Submitting CBI

Do not submit CBI to EPA through <https://www.regulations.gov> or email. If you wish to include CBI in your comment, please follow the applicable instructions at <https://www.epa.gov/dockets/commenting-epa-dockets#rules> and clearly mark the information that you claim to be CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR parts 2 and 703, as applicable.

2. Tips for Preparing Your Comments

When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

II. Request for Comment

EPA invites public comment on all aspects of the PCE final rule, including but not limited to any existing or anticipated implementation issues associated with the final rule requirements, experiences with the PCE final rule since it went into effect, and whether the Agency should consider additional or alternative measures or

approaches to address the unreasonable risk presented by PCE under the conditions of use. Input on the following is of particular interest to EPA:

- The Existing Chemical Exposure Limit (ECEL) of 0.14 parts per million (ppm) as an 8-hour time weighted average (8-hr TWA) promulgated in the PCE final rule as part of the Workplace Chemical Protection Program (WCPP) (see 40 CFR 751.603 and 751.607(b)), including whether the use of a different exposure limit would be more appropriate to inform risk management. Different exposure limits might include but are not limited to: the acute non-cancer exposure limit of 0.50 ppm (8-hr TWA) and the lifetime cancer exposure limit of 0.47 ppm (8-hr TWA) as presented in the Existing Chemical Exposure Limit (ECEL) for Occupational Use of Perchloroethylene Memo available at <https://www.regulations.gov/document/EPA-HQ-OPPT-2020-0720-0043>.

- Conditions of use the Agency could contemplate subjecting to a WCPP as opposed to imposing a prohibition. Information such as workplace controls currently in place or other information demonstrating how regulated parties could mitigate the unreasonable risk of PCE for the condition of use would be most helpful to the Agency.

- The use of PCE in industrial dry cleaning processes including workplace controls that reduce exposure to PCE and the performance of alternatives to PCE in these operations.

To the extent possible, the Agency asks commenters to please cite and provide any public data related to or that supports comments provided, and to the extent permissible, describe and provide any supporting data that is not publicly available.

FEDERAL DEPOSIT INSURANCE CORPORATION

[OMB No. 3064–0001;–0189]

Agency Information Collection Activities: Proposed Collection Renewal; Comment Request

AGENCY: Federal Deposit Insurance Corporation FDIC.

ACTION: Notice and request for comment.

SUMMARY: The Federal Deposit Insurance Corporation (FDIC), as part of its obligations under the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to take this opportunity to comment on the renewal of the existing information collection described below (OMB Control No. 3064–0001 and –0189).

DATES: Comments must be submitted on or before September 29, 2025.

ADDRESSES: Interested parties are invited to submit written comments to the FDIC by any of the following methods:

- *Agency website:* <https://www.fdic.gov/resources/regulations/federal-register-publications/>.

- *Email:* comments@fdic.gov. Include the name and number of the collection in the subject line of the message.

- *Mail:* Robert Meiers, Regulatory Counsel, MB–3013, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.

- *Hand Delivery:* Comments may be hand-delivered to the guard station at the rear of the 17th Street NW building (located on F Street NW), on business days between 7 a.m. and 5 p.m.

All comments should refer to the relevant OMB control number. A copy of the comments may also be submitted to the OMB desk officer for the FDIC: Office of Information and Regulatory Affairs, Office of Management and

Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Robert Meiers, Regulatory Attorney, Romeiers@fdic.gov, MB–3013, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.

SUPPLEMENTARY INFORMATION: Proposal to renew the following currently approved collection of information:

1. *Title:* Interagency Charter and Federal Deposit Insurance Application.

OMB Number: 3064–0001.

Form Number: 6200–05.

Affected Public: Banks or savings associations wishing to become FDIC-insured depository institutions.

Burden Estimate:

SUMMARY OF ESTIMATED ANNUAL BURDEN [OMB No. 3064–0001]

Information Collection (IC) (obligation to respond)	Type of burden (frequency of response)	Number of respondents	Number of responses per respondent	Average time per response (HH:MM)	Annual burden (hours)
1. Interagency Charter and Federal Deposit Insurance Application, Form 6200–05 (Mandatory).	Reporting (On Occasion).	21	1	125:00	2,625
Total Annual Burden (Hours)	2,625

Source: FDIC.

General Description of Collection: The Federal Deposit Insurance Act requires financial institutions to apply to the FDIC to obtain deposit insurance. This collection provides the FDIC with the information needed to evaluate the applications. There is no change in the method or substance of the collection.

The increase in burden hours is the result of economic fluctuation. In particular, the number of respondents has increased while the hours per response and frequency of responses have remained the same.

2. *Title:* Stress Testing Recordkeeping and Reporting.

OMB Number: 3064–0189.

Form Number: None.

Affected Public: Insured State nonmember banks and State savings associations.

Burden Estimate:

General Description of Collection: The FDIC has issued a rule requiring periodic stress testing by FDIC-supervised institutions having more than \$250 billion in total assets, consistent with changes made by section 401 of the Economic Growth, Regulatory Relief, and Consumer Protection Act (EGRRCPA). Section 165(i)(2) of the Dodd-Frank Act requires each primary Federal regulator to issue consistent and comparable regulations to (1) ensure that certain financial companies conduct stress tests; (2) establish the form and content of the required reports of such stress tests, and (3) require companies to publish a summary of the stress test results. As originally enacted, section 165(i)(2)(C) applied to all IDIs with average total consolidated assets of \$10 billion or greater, required such IDIs to conduct annual stress tests, and required the use of three scenarios: baseline, adverse, and severely adverse. Consistent with the requirements of section 165(i)(2)(C), as originally enacted, the FDIC published its final rule implementing section 165(i)(2) on October 15, 2012. The requirements under 12 CFR part 325 applied to FDIC-supervised IDIs with average total consolidated assets of \$10 billion or greater. The EGRRCPA, enacted on May 24, 2018, amended certain aspects of the company-run stress-testing requirements in section 165(i)(2) of the Dodd-Frank Act. The EGRRCPA amendments to the section 165(i)(2) stress testing requirements became effective eighteen months after enactment.

The aspects of 12 CFR part 325 that constitute an information collection are those that require a banking organization to (1) file stress test reports to be filed periodically with the FDIC and the Board of Governors of the Federal Reserve System (the Board) in the time, manner, and form specified by the FDIC (12 CFR 325.6); (2) establish and maintain a system of controls, oversight, and documentation, including policies and procedures that describe the covered bank's stress test practices and methodologies, as well as processes for updating such bank's stress test practices, as well as specific

calculations that must be made by the banking organization during its stress tests (12 CFR 325.5); and (3) publish a summary of the results of its stress tests (12 CFR 325.7).

On May 17, 2012, the FDIC, the Office of the Comptroller of the Currency, and the Board published the 2012 Interagency Guidance on the use of stress testing as a means to better understand the range of a banking organization's potential risk exposures. The guidance is intended for IDIs with total consolidated assets of more than \$10 billion and provides an overview of how a banking organization should structure its stress testing activities to ensure they fit into the banking organization's overall risk management program. The purpose of the guidance is to outline broad principles for a satisfactory stress testing framework and describe the manner in which stress testing should be used, that is as an integral component of risk management applicable at various levels of aggregation within a banking organization as well as a tool for capital and liquidity planning. The 2012 Interagency Guidance recommends that IDIs stress test in coordination with their "overall strategy and annual planning cycles" and assess and review their stress testing frameworks at least once a year to ensure that stress testing coverage is comprehensive, tests are relevant and current, methodologies are sound, and results are properly considered.

The aspects of the 2012 Interagency Guidance that constitute an information collection are the provisions that state a banking organization should (1) have a stress testing framework that includes clearly defined objectives, well designed scenarios tailored to the banking organization's business and risks, well documented assumptions, conceptually sound methodologies to assess potential impact on the banking organization's financial condition (section II); (2) maintain an internal summary of test results to document at a high level the range of its stress testing activities and outcomes, as well as proposed follow-up actions (section III); and (3) have policies and procedures for a stress

testing framework (section VI). There has been no change in the substance or methodology of this information collection. The 774 hour increase in total estimated annual burden from 5,726 hours in 2023 to 6,500 hours currently is due to the doubling of annual responses to ICs 1–3 and the increased number of respondents to IC 6 and is attenuated by the decreased number of respondents to ICs 4 and 5.

Request for Comment

Comments are invited on (a) whether the collections of information are necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
