

A. Why Do States Issue Variances and Exemptions?

States with primary PWSS enforcement authority are authorized to grant variances and exemptions from the National Primary Drinking Water Regulations to specific public water systems provided these variances and exemptions meet the requirements of SDWA sections 1415 and 1416 and are protective of public health, 42 U.S.C. 300g-4 and 300g-5.

B. Why Is a Review of Variances and Exemptions Necessary?

The SDWA requires that EPA periodically review State-issued variances and exemptions to determine whether the State has abused its discretion in a substantial number of cases and to publish the results of that review in the **Federal Register**, 42 U.S.C. 300g-4(a)(1)(F), 42 U.S.C. 300g-5(d).
