This notice allows for an additional 30 days for public comments. Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. Abstract: The collection of information is necessary in order to receive applications for credit assistance pursuant to section 5024 of the Water Infrastructure Finance and Innovation Act (WIFIA) of 2014, 33 U.S.C. 3903. The purpose of the WIFIA program is to provide Federal credit assistance in the form of direct loans and loan guarantees to eligible water infrastructure projects.

WIFIA requires that an eligible entity submit to the Administrator an application at such time, in such manner, and containing such

information, as the Secretary or the Administrator *may require* to receive assistance under WIFIA. In order to satisfy these requirements, EPA must collect an application from prospective borrowers seeking funding. The Letters of Interest and Applications collected from prospective borrowers through this solicitation will be used by the EPA, WIFIA program staff, and reviewers to evaluate applications for credit assistance under the WIFIA eligibility requirements and selection criteria.

Form Numbers: EPA 6100-030, 6100-031, 6100-32, 6100-033, 6100-054, 6100-080.

Respondents/affected entities: Corporations, partnerships, joint ventures, trusts, federal, state, or local government entities, tribal governments or a consortium of tribal governments, and state infrastructure finance authorities.

Respondent's obligation to respond: Required to obtain or retain a benefit (section 5024 of WIFIA, 33 U.S.C. 3903).

Estimated number of respondents: 105 per year (total).

Frequency of response: One per funding round.

Total estimated burden: 10,450 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$10,772,065 (per year), which includes \$10,000,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 375 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to EPA anticipating fewer collections based on average numbers in the past 3 years. That decrease is offset by a small increase due to a new form.

Courtney Kerwin,

Director, Regulatory Support Division.
