[Docket No. 50-461; NRC-2024-0122]

**Constellation Energy Generation, LLC;
Clinton Power Station, Unit 1; Partial
Site Release**

AGENCY: Nuclear Regulatory
Commission.

ACTION: Public meeting; request for
comment.

SUMMARY: The U.S. Nuclear Regulatory
Commission (NRC) is considering a
request from Constellation Energy
Generation, LLC (Constellation, the
licensee) to approve the release of 172.7
acres of land to DeWitt County, Illinois,

for the Clinton Lake Marina.

Constellation had recently identified
that a Quit Claim Deed was executed by
AmerGen Energy Company, LLC, a
previous licensee for Clinton Power
Station, Unit 1, (CPS) on September 17,
2003, without obtaining approval in
accordance with NRC regulations.
Constellation states that this property
has not been impacted by CPS
operations. The NRC will review the
request as directed by NRC regulations.
The NRC is soliciting public comment
on the requested action and invites
stakeholders and interested persons to
participate.

DATES: The public meeting will be held
on Wednesday, July 24, 2024, from 5:30
p.m. until 7 p.m. central time (CT), at

II. Discussion

Constellation Energy Generation LLC (Constellation, the licensee) is the holder of Facility Operating License No. NPF–62 for Clinton Power Station, Unit 1 (CPS). The license provides, among other things, that the CPS, Unit 1 is subject to all rules, regulations, and orders of the NRC now or hereafter in effect. The CPS license (NPF–62, Docket No. 50–461) is for a power reactor under part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), “Domestic Licensing of Production and Utilization Facilities.”

The NRC received a request for approval of a partial site release from Constellation, by letter dated June 7, 2023 (ADAMS Accession No.

ML23158A262), as supplemented by letter dated February 8, 2024 (ADAMS Accession No. ML24039A182). Constellation requests NRC approval to remove and release from its 10 CFR part 50, license, 172.7 acres of land for the Clinton Lake Marina in accordance with 10 CFR 50.83(b). In its request, the licensee states that the property that is subject to this release request was not used for plant operations or storage of radioactive material. As described in 10 CFR 50.83(c), the NRC will determine whether the licensee has adequately evaluated the effect of releasing the properties per the requirements of 10 CFR 50.83(a)(1); determine whether the licensee’s classification of any released areas as “non-impacted” is adequately justified; and if the NRC determines that the licensee’s submittal is adequate, the NRC will inform the licensee in writing that the release is approved.

III. Request for Comment and Public Meeting

The NRC will conduct a public meeting to answer questions and gather comments regarding Constellation’s request for approval of the partial site release. The meeting will be held on Wednesday, July 24, 2024, from 5:30 p.m. until 7 p.m., CT, at the Clinton City Hall, 118 W Washington St., Ste. 3, Clinton, IL 61727. Comments can be provided orally or in writing to the NRC staff present at the meeting. The NRC will consider and, if appropriate, respond to these written and verbal comments, but such comments will not otherwise constitute part of the decisional record.

Please contact Joel S. Wiebe no later than July 17, 2024, by phone at 301–415–6606 or by email at Joel.Wiebe@nrc.gov, if accommodations or special equipment are needed for you to attend or to provide comments, so that the NRC staff can determine whether the request can be accommodated.

For information regarding the meeting, monitor the NRC’s Public Meeting Schedule website at <https://www.nrc.gov/pmns/mtg> for information about the public meeting. The agenda will be posted no later than 10 days prior to the meeting.

Dated: July 3, 2024.
