

Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market.

As implemented in SBA's regulations at 13 CFR 121.1202(c), in order to be considered available to participate in the Federal market for a class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal government within the last 24 months. The SBA defines "class of products" based on a six digit coding system.

The coding system is the Office of Management and Budget North American Industry Classification System (NAICS).

The SBA is currently processing a request to waive the Nonmanufacturer Rule for Personal Computers, Manufacturing, North American Industry Classification System (NAICS) 334111. The public is invited to comment or provide source information to SBA on the proposed waiver of the Nonmanufacturer Rule for this class of NAICS code within 15 days after date of publication in the **Federal Register**.
