

for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before March 3, 2014.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0319, to: (1) EPA online, using www.regulations.gov (our preferred method), or by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of petroleum refinery wastewater systems are required to keep records of design and operating specifications of all equipment installed to comply with such standards such as water seals, roof seals, control devices, and other equipment. This information is necessary to ensure that equipment design and operation specifications are met, and the source is in compliance with NSPS subpart QQQ.

Form Numbers: None.

Respondents/affected entities:

Petroleum refinery wastewater systems.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart QQQ)

Estimated number of respondents: 135 (total).

Frequency of response: Initially, occasionally, and semiannually

Total estimated burden: 9,237 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$921,126 (per year), includes \$17,550 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. The increase in respondent and Agency costs from the most recently approved ICR is due to an adjustment in labor rates. This ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

John Moses,

Director, Collection Strategies Division.

Notification of Three Public Meetings of the Chemical Assessment Advisory Committee (CAAC), the CAAC Augmented for the Review of Ammonia and the CAAC Augmented for the Review of Trimethylbenzenes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or agency) Science Advisory Board (SAB) Staff Office announces three public meetings. The SAB Chemical Assessment Advisory Committee (CAAC) and additional experts will meet in a plenary session to learn about new enhancements to the EPA's process for developing Integrated Risk Information System (IRIS) health assessments for chemicals. After the
