

programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On March 21, 2022, the Rhode Island Department of Environmental Management (RIDEM) submitted an application titled Combined Air Emissions Reporting System (CAERS) for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed RIDEM's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve RIDEM's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR is being published in the **Federal Register**:

Part 52: Approval and Promulgation of Implementation Plans (SIP/Clean Air Act Title II) Reporting under CFR 50–52

RIDEM was notified of EPA's determination to approve its application with respect to the authorized programs listed above.

Dated: March 31, 2022.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On March 21, 2022, the Pima County Department of Environmental Quality (PCDEQ) submitted an application titled Combined Air Emission Reporting System (CAERS) for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed PCDEQ's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve PCDEQ's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR is being published in the **Federal Register**:

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for New Residential Hydronic Heaters and Forced-Air Furnaces (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for New Residential Hydronic Heaters and Forced-Air Furnaces (EPA ICR Number 2442.04, OMB Control Number 2060–0693, to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2022. Public comments were previously requested, via the **Federal Register**, on February 8, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before May 6, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2020–0671, to EPA online using <https://www.regulations.gov> (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public

docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be confidential business information or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Abstract: Manufacturers of wood-fired residential hydronic heaters, forced-air furnaces, or other central heaters, testing laboratories, and third-party certifiers are required to comply with reporting and recordkeeping requirements for the General Provisions (40 CFR part 60, subpart A), as well as for the applicable specific standards in 40 CFR part 60 Subpart QQQQ. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records. These reports are used by EPA to determine compliance with these same standards.

Form Numbers: None.

Respondents/affected entities: Manufacturers of wood-fired residential hydronic heaters, forced-air furnaces, or other central heaters, testing laboratories, third-party certifiers.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart QQQQ).

Estimated number of respondents: 24 (total).

Frequency of response: Annually, biennially, every five years.

Total estimated burden: 2,390 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$950,000 (per year), which includes \$484,000 in annualized capital/startup costs. There are no operation & maintenance (O&M) costs.

Changes in the Estimates: There is a significant decrease in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to several considerations. The size of the industry (number of respondents) has decreased by half since the previously-approved ICR (2442.03), resulting in a significant decrease in both labor burden and capital/startup costs for periodic re-testing and auditing of model lines. The decrease in the number of respondents is based on certification data collected by the EPA. This ICR includes a review of the regulations as amended on April 2, 2020 at 85 FR 18448, but these amendments did not increase burden. The regulations are anticipated to change over the next three years, but these changes are not anticipated to either increase or decrease burden. The growth rate for this industry is anticipated to be zero over the next three years as manufacturers have already certified to the 2020 standards, resulting in no expenses for testing new model lines.

Director, Regulatory Support Division.
