Title: Metropolitan and Statewide Transportation Planning (OMB Number: 2132-0529).

Background: The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) jointly carry out the Federal mandate to improve urban and rural transportation. 49 U.S.C. Sections 5303 and 5304 and 23 U.S.C. 134 and 135 authorize the use of Federal funds to assist Metropolitan Planning Organizations (MPOs), States, and local public bodies in developing transportation plans and programs to serve the transportation needs of urbanized areas over 50,000 in population and other areas of States outside of urbanized areas. The information collection activities involved in developing the Unified Planning Work Program (UPWP), the Metropolitan Transportation Plan, the Long Range Statewide Transportation Improvement Plan, the Transportation Improvement Program (TIP), and the Statewide Transportation Improvement Program (STIP) are necessary to identify and evaluate the transportation issues and needs in each urbanized area and throughout every State. These products of the transportation planning process are essential elements in the reasonable planning and programming of Federally funded transportation investments.

In addition to serving as management tools for MPOs and State DOTs, the UPWP and State Planning and Research (SP&R) Work Program are used by both FTA and FHWA to monitor the transportation planning activities of those agencies. It is also needed to establish national out year budgets and regional program plans, develop policy on using funds, monitor State and local

compliance with national technical emphasis areas, respond to Congressional inquiries, prepare Congressional testimony, and ensure efficiency in the use and expenditure of Federal funds by determining that planning proposals are both reasonable and cost-effective. 49 U.S.C. Section 5303 and 23 U.S.C. 134(h) require the development of TIPs for urbanized areas; STIPs are mandated by 49 U.S.C. Section 5304 and 23 U.S.C. 235(f) for an entire State. After approval by the Governor and MPO, metropolitan TIPs in attainment areas are to be incorporated directly into the STIP. For nonattainment areas, FTA/FHWA must make a conformity finding on the TIPs before including them into the STIP. The complete STIP is then jointly reviewed and approved or disapproved by FTA and FHWA. These conformity findings and approval actions constitute the determination that States are complying with the requirements of 23 U.S.C. 235 and 49 U.S.C. Section 5304 as a condition of eligibility for Federal-aid funding. Without these documents, approvals and findings, capital and/or operating assistance cannot be provided.

Respondents: State Departments of Transportation (DOTs) and MPOs.

Estimated Annual Burden on Respondents: 634.7 hours for each of the 453 respondents.

Estimated Total Annual Burden: 287,519 hours.

Frequency: Annual.

Issued: April 21, 2009.

Title: 49 CFR Part 611 Major Capital Investment Projects (OMB Number: 2132-0561)

Background: On August 10, 2005, the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was enacted. Sections 3011(d)(5) and 3011(e)(6) of SAFETEA-LU require FTA to issue regulations on the manner in which candidate projects for major capital investment grants for new fixed guideway systems, extensions to existing fixed guideway systems, or significant corridor based bus investments ("New Starts," "Small Starts," respectively) will be evaluated and rated for purposes of the FTA Capital Investment Grants program for New and Small Starts under 49 U.S.C. Section 5309. An Advanced Notice of Proposed Rulemaking (ANPRM) for this regulation was issued on January 30, 2006, (71 FR 22841). A Notice of Proposed Rulemaking (NPRM) was issued on August 3, 2007, (72 FR 43328). The NPRM was withdrawn on February 17, 2009, due to an intervening statutory change resulting from the passage of the SAFETEA-LU Technical Corrections Act in June 2008.

FTA has a longstanding requirement to evaluate proposed projects against a prescribed set of statutory criteria. The Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) established in law a set of criteria that proposed projects had to meet in order to be eligible for federal funding. The requirement for summary project ratings has been in place since 1998. Thus, the requirements for project evaluation and data collection for New Starts projects are not new, nor have they changed extensively since their inception. One addition included in SAFETEA-LU is the Small Starts program. The Small Starts program enables projects with a lesser total capital cost and smaller requested share of New Starts funds to progress through

a simplified and streamlined project evaluation and data collection process. In general, though, the information used by FTA for New and Small Starts project evaluation and rating purposes should arise as a part of the normal planning process.

FTA has been collecting project evaluation information from project sponsors under the existing OMB approval for this program (OMB No. 2132-0561). However, due to modifications in project evaluation criteria for the New Starts program and the addition of the Small Starts program, it became apparent that some information required might be beyond the scope of ordinary planning activities.

SAFETEA-LU creates additional requirements for before-and-after data collection for purposes of Government Performance and Results Act reporting as a condition of obtaining a Full Funding Grant Agreement (FFGA) or a Project Construction Grant Agreement (PCGA).

Respondents: State and local government.

Estimated Annual Burden on Respondents: Approximately 217.7 hours for each of the 178 respondents.

Estimated Total Annual Burden: 38,760 hours.

Frequency: Annual.

Issued: April 21, 2009.

Ann M. Linnertz,

Associate Administrator for Administration.
