

9573(c)) with respect to such records. When personally identifiable information from a student's education record will be disclosed to the researcher under FERPA, the researcher also shall be required to comply with the requirements in the applicable FERPA exception to consent.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Not applicable to this system of records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The Department maintains records on CD-ROM, and the contractor (Social Policy Research Associates) and subcontractor (Mathematica Policy Research, Inc.) maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed and retrieved by a number assigned to each individual that is cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department's site and to the site of the Department's contractor and subcontractor, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a need-to-know basis, and controls individual users' ability to access and alter records within the system. The contractor and subcontractor will establish a similar set of procedures at its site to ensure confidentiality of data. The contractor's and subcontractor's systems are required to ensure that information identifying individuals is in files physically separated from other research data. The contractor and subcontractor will maintain security of the complete set of all master data files and documentation. Access to individually identifying data will be strictly controlled. All data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include: Password-protected accounts that authorize users to use the

contractor's system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators will establish for projects as needed. The contractor's and subcontractor's employees who "maintain" (collect, maintain, use, or disseminate) data in this system shall comply with the requirements of the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedule 068 (NARA Disposition Authority N1-441-08-18).

SYSTEM MANAGER AND ADDRESS:

Associate Commissioner, Evaluation Division, National Center for Education Evaluation and Regional Assistance, Institute of Education Sciences, U.S. Department of Education, 555 New Jersey Avenue NW., room 502D, Washington, DC 20208-0001.

NOTIFICATION PROCEDURE:

If you wish to determine whether a record exists regarding you in the system of records, contact the systems manager. Your request must meet the requirements of regulations at 34 CFR 5b.5, including proof of identity.

RECORD ACCESS PROCEDURE:

If you wish to gain access to your record in the system of records, contact the system manager. Your request must meet the requirements of regulations at 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURE:

If you wish to contest the content of a record regarding you in the system of records, contact the system manager. Your request must meet the requirements of the regulations at 34 CFR 5b.7, including proof of identity.

RECORD SOURCE CATEGORIES:

This system contains records on students participating in the Evaluation of the Pell Grant Experiments Under the Experimental Sites Initiative. Data will be obtained through student records maintained by participating institutions, a survey of students, data extracts from Free Applications for Federal Student Aid, and from the administrative records of another Federal agency with data on the students' earnings and employment outcomes.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.
