

explain the story of Flight 93 and the events of September 11, 2001. Site development would also include infrastructure, access roads, and visitor parking areas.

The Environmental Impact Statement assesses the potential environmental impacts of implementing the alternatives. To support the plan, the National Park Service prepared a cultural landscape inventory and reports on transportation, geotechnical conditions, visitor and economic projections, natural resources, hazardous materials, and visual resources. The National Park Service conducted public scoping of the alternatives, including consultations with local, state, and federal agencies.

After public review of the Draft GMP/EIS, the National Park Service will consider comments, and a Final GMP/EIS, followed by a Record of Decision, will be prepared. The Final GMP/EIS is scheduled for completion in 2006.

Title: Yakima Basin Recreation Survey.

Abstract: The Yakima River Basin is located in south central Washington State in the counties of Benton, Franklin, Yakima, and Kittitas. The seven major reservoirs in the Yakima River Basin are Bumping Lake, Clear Lake, Cle Elum, Kachess, Keechelus, Easton, and Rimrock. The five major rivers in the Yakima River Basin are the Yakima, Naches, Cle Elum, Bumping and Tieton. Reclamation is in the

process of preparing a Yakima River Basin Water Storage Feasibility Study and associated Environmental Impact Statement that will address options for supplying additional water storage for the Yakima River Basin. Currently, site-specific recreation-related information is unavailable for the primary reservoirs and rivers. In order to accurately assess the current recreation and recreation-related economic environment within the Yakima River Basin, additional information must be collected from the recreationists who visit the reservoirs and rivers within the basin. Further, the survey information will allow Reclamation to adequately assess the recreation impacts that different options may have on the environment and the local economy.

The required 60-day comment period was initiated by a notice published in the **Federal Register** on February 16, 2006 (71 FR 8310). No comments were received in response to the 60-day comment period.

Frequency: One time survey.

Respondents: Yakima River Basin reservoir and river recreationists come from the cities of Yakima and Ellensburg, Washington, as well as the smaller communities within the basin. A large number of visitors also come from western Washington, in particular the Puget Sound communities of Seattle and Tacoma. A smaller portion of recreationists within the basin are out-of-state visitors.
