General Program Guidelines:

Applicants should identify the local organizations and individuals in the counterpart country with whom they are proposing to collaborate and describe in detail previous cooperative programming and/or contacts. Specific information about the counterpart organizations' activities and accomplishments should be included in the section on Institutional Capacity. Proposals should contain letters of support tailored to the project being proposed from foreign-country partner organizations.

Exchanges and training programs supported by institutional grants from the Bureau should operate at two levels: they should enhance institutional partnerships, and they should offer practical information and experience to individuals and groups to assist them with their professional responsibilities. Strong proposals usually have the following characteristics:

- A proven track record of working in the proposed issue area and country;
- Experienced staff with language facility and a commitment by the staff to monitor projects locally to ensure implementation;
- A clear, convincing plan showing how permanent results will be accomplished as a result of the activity funded by the grant; and
- A plan that outlines activities that will take place after the Bureau grant concludes.

Proposal narratives should clearly demonstrate an organization's commitment to consult closely with the Public Affairs Section, and when required, other officers at the U.S. Embassy. Proposal narratives must confirm that all materials developed for the project will acknowledge Bureau funding for the program as well as a commitment to invite representatives of the Embassy and/or Consulate to participate in various program sessions/site visits. Please note that this will be a formal requirement in all final grant awards.

Suggested Program Designs: Bureau-supported exchanges may include internships; study tours; short-term, non-technical experiential learning, extended and intensive workshops and seminars taking place in the United States or overseas. Examples of program activities include:

1. A U.S.-based program that includes: Orientation to program purposes and to U.S. society; study tour/site visits; professional internships/placements; interaction and dialogue; hands-on training; professional development; and action plan development. Proposals that include U.S.-based training will receive the highest priority.
2. Capacity-building/training-of-trainer (TOT) workshops to help participants to identify priorities, create work plans, strengthen professional and volunteer skills, share their experience with committed people within each country, and become active in a practical and valuable way.
3. Site visits by U.S. facilitators/experts to monitor projects in the region and to provide additional training and consultations as needed.
