Withdrawal of Revisions to the Water Quality Planning and Management Regulation and Revisions to the National Pollutant Discharge Elimination System Program in Support of Revisions to the Water Quality Planning and Management Regulation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: Today's action proposes to withdraw the final rule entitled "Revisions to the Water Quality Planning and Management Regulation and Revisions to the National Pollutant Discharge Elimination System Program in Support of Revisions to the Water Quality Planning and Management Regulation ("the July 2000 rule") published in the **Federal Register** on July 13, 2000. The July 2000 rule amended and clarified existing regulations implementing a section of the Clean Water Act (CWA), which requires States to identify waters that are not meeting applicable water quality standards and to establish pollutant budgets, called Total Maximum Daily Loads (TMDLs), to restore the quality of those waters. The July 2000 rule also amended EPA's National Pollutant Discharge Elimination System ("NPDES") regulations to include provisions addressing implementation of TMDLs through NPDES permits. The July 2000 rule has never become effective; it is currently scheduled to take effect on April 30, 2003. Regulations that EPA promulgated in 1985 and amended in 1992 remain the regulations in effect for implementing the TMDL Program. Today, EPA is proposing to withdraw the July 2000 rule, rather than allow it to go into effect or again propose to extend its effective date. EPA believes that significant changes would need to be made to the July 2000 rule before it could serve as the blueprint for an efficient and effective TMDL Program. Furthermore, EPA needs additional time beyond April 2003 to decide whether and how to revise the currently-effective regulations implementing the TMDL Program in a way that will best achieve the goals of the CWA.

DATES: Written comments on this proposed rule should be submitted by January 27, 2003. Comments provided electronically will be considered timely
