#### SUPPLEMENTARY INFORMATION:

#### I. Background

Russia became a Member of the WTO on August 22, 2012, and on December 21, 2012, following termination of the application of the Jackson-Vanik amendment to Russia and the extension of permanent normal trade relations to the products of Russia, the United States and Russia filed letters with the WTO withdrawing their notices of nonapplication and consenting to have the WTO Agreement apply between them. In accordance with Section 201(a) of the Russia and Moldova Jackson-Vanik Repeal and Sergei Magnitsky Rule of Law Accountability Act of 2012 (Pub. L. 112–208), USTR is required to submit annually a report to Congress on the extent to which Russia is implementing the WTO Agreement, including the Agreement on the Application of Sanitary and Phytosanitary Measures and the Agreement on Trade Related Aspects of Intellectual Property Rights. The report also must assess Russia's progress on acceding to and implementing the Information Technology Agreement (ITA) and the Government Procurement Agreement (GPA). In addition, to the extent that USTR finds that Russia is not

implementing fully any WTO agreement or is not making adequate progress in acceding to the ITA or the GPA, USTR must describe in the report the actions it plans to take to encourage Russia to improve its implementation and/or increase its accession efforts. In accordance with Section 201(a), and to assist it in preparing this year's report, USTR is soliciting public comments. You can find last year's report on USTR's website at: https://ustr.gov/ sites/default/files/2024 %20Report%20on %20the %20Implementation %20and%20Enforcement %20of%20Russia%E2%80%99s %20WTO%20Commitments %20final.pdf.

The terms of Russia's accession to the WTO are contained in the Marrakesh Agreement Establishing the World Trade Organization and the Protocol on the Accession of the Russian Federation to the WTO (including its annexes) (Protocol). The Report of the Working Party on the Accession of the Russian Federation (Working Party Report) provides detail and context to the commitments listed in the Protocol. You can find the Protocol and Working Party Report on USTR's website at https:// ustr.gov/node/5887 or on the WTO website at http://docsonline.wto.org (document symbols: WT/ACC/RUS/70, WT/MIN(11)/2, WT/MIN(11)/24, WT/L/ 839, WT/ACC/RUS/70/Add.1, WT/ MIN(11)/2/Add.1, WT/ACC/RUS/70/ Add.2, and WT/MIN(11)/2/Add.1.)

[Docket: FAA-2025-2256]

Notice of Availability; Federal Aviation Administration's Errata to the Environmental Assessment and Record of Decision for Settlement Agreement Departure Procedure Amendments at Bob Hope "Hollywood Burbank" Airport, Burbank, California

**AGENCY:** Federal Aviation Administration (FAA), Department of Transportation.

**ACTION:** Notice of availability (NOA) for the errata to the environmental assessment (EA) and record of decision (ROD) for settlement agreement departure procedure amendments at Bob Hope "Hollywood Burbank" Airport (BUR), Burbank, California.

**SUMMARY:** The FAA announces its decision to finalize its EA pertaining to the proposed settlement agreement departure procedure amendments at BUR.

### FOR FURTHER INFORMATION CONTACT: Mr.

Joseph Bert, Federal Aviation Administration, Team Manager, Environmental/Community Involvement/NAS Analytics, Operations Support Group, Western Service Center I, email: Joseph.M.Bert@faa.gov.

### SUPPLEMENTARY INFORMATION:

# **Background**

The FAA originally established satellite-based area navigation (RNAV) departure procedures at BUR as a part of the 2016 Southern California Metroplex project. Following the implementation of the original procedures and beginning in 2018, the FAA received letters from a wide range of officials, individuals, and community

groups related to noise at BUR. As the result of a lawsuit filed against the FAA on October 24, 2016, the FAA entered into a settlement agreement with the Benedict Hills Estates Association and Benedict Hills Homeowners Association (Settlement Agreement) on March 3, 2018.

On March 25, 2019, based on public feedback, the FAA announced its decision to prepare an environmental assessment (EA) to consider proposed amendments to the OROSZ and SLAPP departure procedures at BUR to fulfill its obligations under the Settlement Agreement. The FAA noted in its announcement that it would not include a re-evaluation of the Southern California Metroplex project. Informational briefings and updates were posted to the FAA's community engagement website in July 2019. On October 4, 2019, the FAA announced that it had awarded a contract to conduct the EA.

The FAA developed Alternative A in compliance with the initial design outlined in the Settlement Agreement. The FAA presented, and later posted, presentations and materials to the Southern San Fernando Valley Airplane Noise Task Force (Task Force) on December 9, 2019, describing Alternative A. The FAA encountered delays in completing the EA that arose from the 2020 COVID-19 public health emergency. The project was further delayed to appropriately consider recommendations provided by the Task Force in May 2020. The FAA responded to each of the recommendations set forth by the Task Force in a letter dated September 1, 2020, and incorporated the recommendations that the FAA deemed to be technically feasible in the development of alternatives for the EA, which eventually became Alternative B.

The FAA continued to work on the EA from 2020 through 2023, and on November 30, 2023, the FAA published a draft EA (DEA) entitled "Proposed Settlement Agreement Departure Procedure Amendments for Hollywood Burbank Airport." The DEA identified the environmental effects associated with the potential implementation of Alternatives A and B, which considered the adoption of new procedures for Runway 15 departures at BUR.

On December 11, 2023, the FAA published a notice of availability in the **Federal Register** to announce the release of the DEA. The public comment period was open for a total of 105 days, from December 11, 2023, through March 24, 2024. The DEA and supplemental information provided during the public comment period were published on the FAA's Community Engagement website.
