#### Approval and Promulgation of Implementation Plan; Indiana

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve revised opacity limits for three casting complexes at ALCOA Warrick Operations, which were submitted by the Indiana Department of Environmental Management (IDEM) on January 13, 2000 as amendments to its State Implementation Plan (SIP). ALCOA Warrick Operations is a primary aluminum smelter located in Newburgh, Indiana. The revised limits allow higher opacity emissions during fluxing operations at three casting complexes. This action does not reverse applicable mass emissions limits.

**DATES:** EPA must receive written comments by August 4, 2000.

**ADDRESSES:** You should mail written comments to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

#### Guidelines Establishing Test Procedures for the Analysis of Pollutants; Centralized Waste Treatment and Landfills Point Source Categories; Notice of Data Availability and Request for Comment

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of data availability and request for comment.

**SUMMARY:** On January 13, 1999, EPA proposed effluent limitations guidelines, pretreatment standards, and new source performance standards for the Centralized Waste Treatment (CWT) Point Source Category to limit effluent discharges to waters of the United States and the introduction of pollutants into publicly owned treatment works. The comment period for the proposal closed on March 15, 1999.

In the CWT proposal, EPA noted plans for a validation study for several pollutants found during EPA's data gathering, using EPA Methods 625 and 1625. Today, EPA invites comment on the validation data for the pollutants

included in the CWT proposal. EPA plans to use these data to support the use of EPA Methods 625 and 1625, as amended, in the upcoming final CWT rule, and to establish performance criteria for the additional analytes. EPA is soliciting comment only on the new information and data being made available today.

Today's document also provides notice that EPA will clarify the scope of recently-published amendments to EPA Methods 625 and 1625 for the Landfills Point Source Category.

**DATES:** Submit an original and three copies of your comments on or before August 4, 2000.

**ADDRESSES:** Please send an original and 3 copies of your comments and enclosures (including references) to "Centralized Waste Treatment—Notice of Data Availability," W-98-21 Comment Clerk, Water Docket (MC-4101), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Ave., NW, Washington, DC 20460.
