

elapsed time shall be 30.0 minutes or less. If it is in excess of this time, the machine fails the test and no retest is allowed. The manufacturer must document changes made to the machine to improve its performance before a new test is allowed, and furnish them to the laboratory.

5. If the recovery is completed in no more than the 30.0 minutes, measure the oil level in the reservoir, remove the reservoir and then determine the amount of refrigerant recovered, as detailed in Nos. 6 and 7: As measured by the machine and also by noting the weight of the platform scale, which shall be recorded as Weight D.

6. The platform scale shall indicate that a minimum of 95% of the amount charged into the system has been recovered. If the platform scale indicates a lower percentage has been recovered, the machine fails the recovery test.

7. The machine display shall indicate that a minimum of 95.0% of the amount charged into the system has been recovered, within a tolerance of ± 30 g (1 oz) when compared with the platform scale (Weight D minus Weight C). The 30 g (1 oz) tolerance may produce a machine display reading that is below the 95.0% recovery. If a greater difference between machine and platform scale occurs, the machine fails the recovery test.

10.5 Recovery Test Fixture Test Option

If an equipment manufacturer chooses, as an alternative to the actual vehicle, it may certify to SAE J2788 with a laboratory fixture that is composed entirely of all the original equipment parts of a single model year for the 3.0 lb capacity front/rear A/C system in the 2005–07 Chevrolet Suburban. All parts must be those OE-specified for one model year system and no parts may be eliminated or bypassed from the chosen system, or reproduced by a non-OE source. No parts may be added and/or relocated from the OE position in the 2005–07 Suburban. No parts may be modified in any way that could affect system performance for testing under this standard, except adding refrigerant line bends and/or loops to make the system more compact. Reducing the total length of the lines, however, is not permitted. The fixture system shall be powered by an electric motor, run at a speed not to exceed 2000 rpm, and for this test option, no system warm-up or equivalent procedure may be used. The certifying laboratory shall maintain records of all parts purchased, including invoices and payments. The assembly of the parts shall, as an outside-the-vehicle package, duplicate the OE system and its routing, including bends, except for permitted additions of bends and/or loops in refrigerant lines. Aside from the absence of engine operation and the limitations posed by the standard and the use of the electric motor, the test shall otherwise be the same as the test on the Suburban, including test temperature.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 27

[DA 07–4378]

Amendment of Commission Rules—Competitive Bidding Order; Correction

AGENCY: Federal Communications Commission, Wireless Telecommunication Bureau.

ACTION: Correcting amendments.

SUMMARY: The Wireless Telecommunications Bureau of the Federal Communications Commission is correcting a final rule that appeared in the **Federal Register** of Tuesday, July 9, 2002 (67 FR 45362). That final rule inadvertently removed provisions of § 27.502 of the Federal Communication Commission's rules, regarding bidding credit percentages for eligible designated entities bidding on licenses in the 746–764 MHz and 776–794 MHz Bands. This document corrects the final regulations by restoring the substance of the removed provisions.

DATES: Effective on November 9, 2007.

FOR FURTHER INFORMATION CONTACT: Erik Salovaara, 202–418–7582.

SUPPLEMENTARY INFORMATION: This is a summary of the Wireless Telecommunications Bureau Erratum, DA 07–4378, released on October 24, 2007.

The Order that is the subject of these correcting amendments served to eliminate redundant or unnecessary rules from the Code of Federal Regulations. The Order amended the Commission's rules on competitive bidding to further the Bureau's continuing efforts to streamline its procedures in accordance with the Commission's biennial regulatory review obligations set forth at section 11(a) of the Communications Act of 1934, as amended.

As published, the amended 47 CFR 27.502, which renumbered original § 27.502(a)(6) as § 27.502(c), inadvertently omitted the substance of the original § 27.502(c), regarding bidding credit percentages. Subsequently, the Commission removed the new § 27.502(c). This correction restores the original § 27.502(c) as § 27.502(b), and renumbers the remaining paragraphs of § 27.502 (i.e., the current paragraphs (a) and (b)) as §§ 27.502(a)(1) and 27.502(a)(2). In addition, the Commission take this opportunity to update cross-references to 47 CFR 1.2110(e)(2)(ii) and 1.2110(e)(2)(iii) appearing in the original 47 CFR 27.502(c) to reflect the

intervening renumbering of the cross-referenced material as 47 CFR 1.2110(f)(2)(ii) and 1.2110(f)(2)(iii).

List of Subjects in 47 CFR Part 27

Communications common carriers, Radio.

■ Accordingly, 47 CFR part 27 is corrected by making the following correcting amendments:

PART 27—MISCELLANEOUS WIRELESS COMMUNICATIONS SERVICES

■ 1. The authority citation for part 27 continues to read as follows:

Authority: 47 U.S.C. 154, 301, 302, 303, 307, 309, 336 and 337 unless otherwise noted.

■ 2. Revise § 27.502 to read as follows:

§ 27.502 Designated entities.

Eligibility for small business provisions: (a)(1) A small business is an entity that, together with its controlling interests and affiliates, has average gross revenues not exceeding \$40 million for the preceding three years.

(2) A very small business is an entity that, together with its controlling interests and affiliates, has average gross revenues not exceeding \$15 million for the preceding three years.

(b) *Bidding credits.* A winning bidder that qualifies as a small business or a consortium of small businesses as defined in this section may use the bidding credit specified in § 1.2110(f)(2)(iii) of this chapter. A winning bidder that qualifies as a very small business or a consortium of very small businesses as defined in this section may use the bidding credit specified in § 1.2110(f)(2)(ii) of this chapter.

Federal Communications Commission.

Gary D. Michaels,

Deputy Chief, Auctions and Spectrum Access Division, WTB.
