I. Funding Opportunity Description

Purpose of Program: Past emergencies, such as the events of September 11, 2001, Hurricanes Katrina and Rita, and emergencies related to other natural and man-made hazards, reinforce the need for schools and communities to plan for traditional

crises and emergencies, as well as other catastrophic events. The Readiness and Emergency Management for Schools (REMS) grant program provides funds to local educational agencies (LEAs) to establish an emergency management process that focuses on reviewing and strengthening emergency management plans, within the framework of the four phases of emergency management (Prevention-Mitigation, Preparedness, Response, and Recovery). The program also provides resources to LEAs to provide training for staff on emergency management procedures and requires that LEAs develop comprehensive all-hazards emergency management plans in collaboration with community partners including local law enforcement; public safety, public health, and mental health agencies; and local government.

Priorities: These priorities are from the notice of final priorities and requirements for this program, published in the **Federal Register** on March 11, 2009 (74 CFR 10656).

Absolute Priority: For FY 2010 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

LEA Projects Designed To Develop and Enhance Local Emergency Management Capacity.

Under this priority, we support LEA projects designed to create, strengthen, or improve emergency management plans at the LEA and school-building levels and build the capacity of LEA staff so that the LEA can continue the implementation of key emergency management functions after the period of Federal funding. Projects must include a plan to create, strengthen, or improve emergency management plans, at the LEA and school-building levels, and within the framework of the four phases of emergency management: Prevention-Mitigation, Preparedness, Response, and Recovery. Projects must also include: (1) Training for school personnel in emergency management procedures; (2) coordination, and the use of partnerships, with local law enforcement, public safety or emergency management, public health, and mental health agencies, and local government to assist in the development of emergency management plans at the LEA and school-building levels; (3) a plan to sustain the local partnerships after the period of Federal assistance; (4) a plan for communicating school emergency management policies and reunification procedures for parents and

guardians and their children following an emergency; and (5) a written plan for improving LEA capacity to sustain the emergency management process through ongoing training and the continual review of policies and procedures.

Competitive Preference Priority: For FY 2010 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i) we award an additional five points to an application that meets the competitive preference priority.

This priority is:

Priority for Applicants That Have Not Previously Received a Grant Under The REMS Program (CFDA 84.184E).

Under this priority, we give competitive preference to applications from LEAs that have not previously received a grant under this program (CFDA 84.184E). Applicants, including educational service agencies (ESAs), that have received funding under this program directly, or as the lead agency or as a partner in a consortium application under this program, will not meet this priority. Under a consortium application, all members of the LEA consortium must meet this criterion to meet this priority.

Final Requirements: These requirements are from the notice of final priorities and requirements for this program, published in the **Federal Register** on March 11, 2009 (74 FR 10656). The following requirements apply to all applications submitted under this competition:

1. *Partner Agreements.* To be considered for a grant award, an applicant must include in its application an agreement that details the participation of each of the following five community-based partners: The law enforcement agency, the public safety or emergency management agency, the public health agency, the mental health agency, and the head of the applicant's local government (for example the mayor, city manager, or county executive). The agreement must include a description of each partner's roles and responsibilities in improving and strengthening emergency management plans at the LEA and school-building levels, a description of each partner's commitment to the continuation and continuous improvement of emergency management plans at the LEA and school-building levels, and the signature of an authorized representative of the LEA and each partner acknowledging the agreement. For consortium applications, each LEA to be served by

the grant must submit a complete set of partner agreements with the signature of an authorized representative of the LEA and each corresponding partner acknowledging the agreement.

If one or more of the five partners listed in this requirement is not present in the applicant's community, or cannot feasibly participate, the agreement must explain the absence of each missing partner. To be considered eligible for funding, however, an application must include a signed agreement between the LEA, a law enforcement partner, and at least one of the other required partners (public safety or emergency management agency, public health agency, mental health agency, or the head of the local government).

Applications that fail to include the required agreement, including information on partners' roles and responsibilities and on their commitment to continuation and continuous improvement (with signatures and explanations for missing signatures as specified above), will not be read.

Although this program requires partnerships with other parties, administrative direction and fiscal control for the project must remain with the LEA.

2. Coordination with State or Local Homeland Security Plan. All emergency management plans receiving funding under this program must be coordinated with the Homeland Security Plan of the State or locality in which the LEA is located. To ensure that emergency services are coordinated, and to avoid duplication of effort within States and localities, applicants must include in their applications an assurance that the LEA will coordinate with and follow the requirements of their State or local Homeland Security Plan for emergency services and initiatives.

3. Infectious Disease Plan. To be considered for a grant award, applicants must agree to develop a written plan designed to prepare the LEA for a possible infectious disease outbreak, such as pandemic influenza. Plans must address the four phases of emergency management (Prevention-Mitigation, Preparedness, Response, and Recovery) and include a plan for disease surveillance (systematic collection and analysis of data that lead to action being taken to prevent and control a disease), school closure decision making, business continuity (processes and procedures established to ensure that essential functions can continue during and after a disaster), and continuation of educational services.

4. Food Defense Plan. To be considered for a grant award, applicants

must agree to develop a written food defense plan that includes the four phases of emergency management (Prevention-Mitigation, Preparedness, Response, and Recovery) and is designed to safeguard the LEA's food supply, including all food storage and preparation facilities and delivery areas within the LEA.

5. Individuals with Disabilities. Applicants must agree to develop plans that take into consideration the communication, medical, and evacuation needs of individuals with disabilities within the schools in the LEA.

6. Implementation of the National Incident Management System (NIMS). Applicants must agree to implement their grant in a manner consistent with the implementation of the NIMS in their communities. Applicants must include in their applications an assurance that they have met, or will complete, all current NIMS requirements by the end of the grant period.

Because DHS' determination of NIMS requirements may change from year to year, applicants must refer to the most recent list of NIMS requirements published by DHS when submitting their applications. Information about the FY 2009 NIMS requirements for tribal governments and local jurisdictions, including LEAs, may be found at: http://www.fema.gov/pdf/emergency/nims/FY2009_NIMS_Implementation_Chart.pdf.

Note: An LEA's NIMS compliance must be achieved in close coordination with the local government and with recognition of the first responder capabilities held by the LEA and the local government. As LEAs are not traditional response organizations, first responder services will typically be provided to LEAs by local fire and rescue departments, emergency medical service providers, and law enforcement agencies. This traditional relationship must be acknowledged in achieving NIMS compliance in an integrated NIMS compliance plan for the local government and the LEA. LEA participation in the NIMS preparedness program of the local government is essential in ensuring that first responder services are delivered to schools in a timely and effective manner.

Additional information about NIMS implementation is available at: <http://www.fema.gov/emergency/nims>.

III. Eligibility Information

1. Eligible Applicants: LEAs, including charter schools that are considered LEAs under State law, that do not currently have an active grant under the REMS program (CFDA 84.184E). For the purpose of this eligibility requirement, a grant is considered active until the end of the grant's project or funding period, including any extension of those periods that extend the grantee's authority to obligate funds. This eligibility requirement is from the notice of final eligibility requirement published in the **Federal Register** on December 4, 2006 (71 FR 70369).

2. Cost Sharing or Matching: This competition does not require cost sharing or matching.

3. Other:

a. Equitable Participation by Private School Children and Teachers in Grant Program Activities.

Section 9501 of the ESEA, requires that State educational agencies (SEAs), LEAs, or other entities receiving funds under the Safe and Drug-Free Schools and Communities Act provide for the equitable participation of private school children, their teachers, and other educational personnel in private schools located in areas served by the grant

recipient. In order to ensure that grant program activities address the needs of private school children, LEAs must engage in timely and meaningful consultation with private school officials during the design and development of the program. This consultation must take place before any decision is made that affects the opportunities of eligible private school children, teachers, and other education personnel to participate in grant program activities.

In order to ensure equitable participation of private school children, teachers, and other educational personnel, an LEA must consult with private school officials on such issues as: Hazards and vulnerabilities unique to private schools in the LEA's service area, training needs, and existing emergency management plans and resources already available at private schools.

b. Maintenance of Effort.

Section 9521 of the ESEA permits LEAs to receive a grant only if the SEA finds that the combined fiscal effort per student or the aggregate expenditures of the LEA and the State with respect to the provision of free public education by the LEA for the preceding fiscal year was not less than 90 percent of the combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

I. Funding Opportunity Description

Purpose of Program: The purpose of the Grants for the Integration of Schools and Mental Health Systems program is to increase student access to high-quality mental health care by developing innovative approaches that link school systems with the local mental health system.

Priority: In accordance with 34 CFR 75.105(b)(2)(iv), this priority is from section 5541 of the Elementary and Secondary Education Act of 1965, as amended (ESEA) (20 U.S.C. 7269).

Absolute Priority: For FY 2010 and any subsequent year in which we make

awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Increasing student access to quality mental health care by developing innovative approaches to link local school systems with the local mental health system. A program funded under this absolute priority must include all of the following activities:

(1) Enhancing, improving, or developing collaborative efforts between school-based service systems and mental health service systems to provide, enhance, or improve prevention, diagnosis, and treatment services to students.

(2) Enhancing the availability of crisis intervention services, appropriate referrals for students potentially in need of mental health services, and ongoing mental health services.

(3) Providing training for the school personnel and mental health professionals who will participate in the program.

(4) Providing technical assistance and consultation to school systems and mental health agencies and families participating in the program.

(5) Providing linguistically appropriate and culturally competent services.

(6) Evaluating the effectiveness of the program in increasing student access to quality mental health services, and making recommendations to the Secretary about sustainability of the program.

Under this competition we are particularly interested in applications that address the following priority.

Invitational Priority: For FY 2010 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an invitational priority. Under 34 CFR 75.105(c)(1) we do not give an application that meets this invitational priority a competitive or absolute priority over other applications.

This priority is:

Low-Achieving Schools.

Projects that are designed to dramatically improve student achievement in schools identified for corrective action or restructuring under Title I of the ESEA or in high schools with graduation rates of less than 60 percent through either comprehensive interventions or targeted approaches to reform.

Additional Requirements: The following requirements are from the notice of final requirements for this

program, published in the **Federal Register** on May 30, 2006 (71 FR 30778).

Requirement 1—Coordination of Activities

Recipients of a grant under the Grants for the Integration of Schools and Mental Health Systems program are required to coordinate project activities with projects funded under the Department of Health and Human Services' Substance Abuse and Mental Health Services Administration's Mental Health Transformation State Infrastructure Grants (MHTSIG) program (CFDA 93.243), if a grantee's State receives a MHTSIG award. If a recipient of a grant under the Grants for the Integration of Schools and Mental Health Systems program has received or receives a grant under the Department of Education's Readiness and Emergency Management for Schools (REMS) program (CFDA 84.184E), formerly known as the Emergency Response and Crisis Management program, the recipient must coordinate mental health service activities under this grant with those planned under its REMS grant. Projects funded by this program must complement, rather than duplicate, existing or ongoing efforts.

Requirement 2—Safe Schools/Healthy Students Recipients Excluded From Receiving Awards

Former or current recipients under the Safe Schools/Healthy Students program (CFDA 84.184L) are not eligible to receive a Grant for the Integration of Schools and Mental Health Systems. Recipients of Safe Schools/Healthy Students awards are responsible for completing a scope of work under that program that is very similar to the activities required under the Grants for the Integration of Schools and Mental Health Systems program. By restricting the applicant pool to eliminate former or current grantees under the Safe Schools/Healthy Students program, we will be able to focus Federal funds on entities that have not yet received Federal support to develop and implement strong linkages with other entities in their communities for the provision of mental health services to students.

Applicants may compete for both the Grants for the Integration of Schools and Mental Health Systems and Safe Schools/Healthy Students programs in the same year; if applicants are deemed eligible for funding in both grant competitions, the applicant will receive the larger and more comprehensive of the awards.
