

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[IN157-1b; FRL-7517-6]

Approval and Promulgation of State Implementation Plans; Indiana**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the Indiana Department of Environmental Management (IDEM) on January 7, 2003. The revised SIP pertains to certain miscellaneous metal coating operations and the control of gasoline Reid vapor pressure in Clark and Floyd Counties, Indiana. The purpose of this action is to approve amendments to the applicable Indiana rules, assuring that certain controls in the two counties remain in effect even after the counties' redesignation to attainment. In addition, EPA is proposing to approve minor changes to the rules, which are administrative in nature and intended to enhance the rules' clarity. In the Final Rules section of this **Federal Register**, EPA is approving as described herein, the State's SIP revision, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If we receive no adverse comments in response to that direct final rule we plan to take no further action in relation to this proposed rule. If EPA receives significant adverse comments, in writing, which have not been addressed, we will withdraw the direct final rule and address all public comments received in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document.

DATES: EPA must receive written comments on this proposed rule by August 20, 2003.
