

result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

### National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216–6A, NMFS must review our action (*i.e.*, the issuance of an IHA) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual for NOAA Administrative Order 216–6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHAs qualifies to be categorically excluded from further NEPA review.

### Authorizations

As a result of these determinations, NMFS has issued two distinct and consecutive one-year IHAs to BNSF for construction associated with the Railway Bridge 0050–0006.3 Heavy Maintenance Project in King County, Washington from July 16, 2022 to July 15, 2023 (Year 1) and from July 16, 2023 to July 15, 2024 (Year 2) provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

**AGENCY:** Strategic Capabilities Office (SCO), Office of the Secretary, Department of Defense (DoD).

**ACTION:** Record of decision.

**SUMMARY:** The DoD, acting through the Strategic Capabilities Office (SCO), is issuing this Record of Decision (ROD) for the Final Construction and Demonstration of a Prototype Mobile Microreactor Environmental Impact Statement (Final EIS).
