

an approved drug from sale under § 314.81(b)(3)(iii).

We estimate 1,000 firms will expend 40 hours to prepare, review, and approve a standard operating procedure (SOP), for a total of 40,000 hours annually. Although we expect most respondents will have already prepared and implemented an SOP for the electronic submission of drug establishment registration and drug listing information, we retain an estimate for new firms that will do so, as recommended in the guidance.

Finally, we estimate 12,800 respondents are now subject to the reporting provisions introduced by the CARES Act under section 3112(e), and assume it will take 15 minutes to prepare and submit the requisite information, as shown in our 60-day notice. However, we have reduced this figure by 1,780 to 11,020 to reflect proposed reporting exemptions pertaining to: (1) Blood and blood components for transfusion and (2) cell and gene therapy products, where one lot treats a single patient. Consistent with section 510(j)(3)(B) of the FD&C Act, we have proposed to exempt these biological product categories from the reporting requirements in section 510(j)(3)(A) of the FD&C Act. If our proposed order is not finalized, we will adjust our estimate accordingly upon reevaluation of the information collection.

Overall, the information collection reflects an increase which we attribute to the new reporting required by section 510(j) of the FD&C Act, as amended by the CARES Act. We have otherwise retained the currently approved burden estimates for the provisions in part 207.
