

a system of records may be disclosed to anyone who is under contract to the Department of State to fulfill an agency function but only to the extent necessary to fulfill that function. Courts information from a system of records may be made available to any court of competent jurisdiction, whether Federal, state, local or foreign, when necessary for the litigation and adjudication of a case involving an individual who is the subject of a Departmental record.

National Archives, Government Services Administration

A record from a system of records may be disclosed as a routine use to the National Archives and Records Administration and the General Services Administration: for records management inspections, surveys and studies; following transfer to a Federal records center for storage; and to determine whether such records have sufficient historical or other value to warrant accessioning into the National Archives of the United States.

Routine Use Amendment 2

Department of Justice

A record may be disclosed as a routine use to any component of the Department of Justice, including United States Attorneys, for the purpose of representing the Department of State or any officer or employee of the Department of State in pending or potential litigation to which the record is pertinent.

If you wish to contact the above individual directly, you can use the above telephone number or e-mail address provided.

Background

This draft advisory circular (AC) would provide guidance and acceptable methods, but not the only methods that may be used to obtain Federal Aviation Administration (FAA) approval of technical data for turbine engine repairs and alterations in compliance with Title 14 of the Code of Federal Regulations (14 CFR part 33).

This advisory circular would be published under the authority granted to the Administrator by 49 U.S.C. 106(g), 40113, 44701-44702, 44704, and would provide guidance for the requirements in 14 CFR part 33.

Issued in Burlington, Massachusetts, on September 22, 2004.

Francis A. Favara,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.
