SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0275, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NESHAP for Hydrochloric Acid Production (Renewal).

ICR Numbers: EPA ICR Number 2032.07, OMB Control Number 2060-0529.

ICR Status: This ICR is scheduled to expire on September 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart NNNNN.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 565 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of hydrochloric acid production facilities.

Estimated Number of Respondents: 81.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 105,033.

Estimated Total Annual Cost: \$10,789,637, which includes \$10,086,076 in labor costs, \$1,424 in capital/startup costs, and \$702,137 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an increase in burden hours to the respondent as compared to the most recently approved ICR. The increase is due to industry growth in the past three years, resulting in additional number of respondents that are subject to this standard, and corrections to mathematical errors found in the previous ICR. The growth in respondent

universe also results in an increase in the total O&M costs.

In addition, there is an increase in burden costs to both the respondent and the Agency due to an adjustment in labor rates. This ICR uses the most recent labor rates from the Bureau of Labor Statistics in calculating the labor costs.

There is a decrease in capital/startup costs in this ICR as compared to the most recently approved ICR. The previous ICR includes startup costs for all existing and new respondents. This ICR was updated to correctly reflect capital/startup costs associated with new sources only.

Director, Collection Strategies Division.

Abstract: This ICR is for activities related to the implementation of the EPA's 1999 regional haze rule, for the time period between October 31, 2012 and October 30, 2015, and renews the previous ICR. The regional haze rule, as authorized by sections 169A and 169B of the Clean Air Act (CAA), requires states to develop implementation plans to protect visibility in 156 federally-protected Class I areas. Tribes may choose to develop implementation plans. For this time period, states will be completing their implementation plans to comply with the rule. Before any agency, department, or instrumentality of the federal government engages in, supports in any way, provides financial assistance for, licenses, permits, or approves any activity, that agency has the affirmative responsibility to ensure that such action conforms to the State Implementation Plan (SIP) required under the regional haze rule. Section 176(c) of the CAA requires that all Federal actions conform with the SIP requirements. Depending on the type of action, the federal entities must collect information themselves, hire consultants to collect the
