

Alternative actions analyzed in the FEIS include:

- Federal Approval—OCRM can issue an approval based on a finding that the ICMP meets all requirements of the CZMA and other federal statutes (the preferred alternative).

- “No action”—OCRM can take no action or deny approval based on a finding that the ICMP does not meet all requirements of the CZMA and/or other federal statutes.

- Delay Federal Approval—OCRM could delay approval if any element of the ICMP necessary for program approval is not satisfied and require that the ICMP be modified.

The FEIS analyzes environmental impacts that may result from implementation of the preferred and alternative actions.

Decision Process

The government’s decision as to how to proceed will be announced in a Record of Decision (ROD) to be issued no earlier than 30 days after publication of this Notice of Availability.

SUPPLEMENTARY INFORMATION: The Standing and Special Reef Fish SSC will review updated catch data and other updated information on the red snapper fishery provided by the Southeast Fisheries Science Center, and will recommend a level of acceptable biological catch beginning in 2012. The SSC will also review an update stock assessment on gray triggerfish and will recommend a level of acceptable biological catch for that stock. In addition, the SSC will be asked for volunteers from within its membership to participate in the SEDAR 31 red snapper benchmark assessment scheduled to begin in the summer of 2012. The SSC will also discuss the formation of a sub-group to suggest recommendations for revisions to the ABC control rule that was developed in the Generic Annual Catch Limits/Accountability Measures Amendment. Finally, the SSC will conduct an additional review of analysis by the National Marine Fisheries Service on the effect of minimum size limits on greater amberjack yield-per-recruit and spawning potential ratio. The SSC had previously reviewed this analysis in October, but had not received all of the documentation.

Copies of the agenda and other related materials can be obtained by calling (813) 348–1630 or can be downloaded from the Council’s ftp site, ftp.gulfcouncil.org.

Although other non-emergency issues not on the agenda may come before the Scientific and Statistical Committees for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during this meeting. SUPPLEMENTARY INFORMATION:

Reef Fish Amendment 35

The Council is holding seven public hearings on Amendment 35 to the Reef Fish Fishery Management Plan which modifies the greater amberjack

rebuilding plan, adjusts the Stock Annual Catch Limit, and considers commercial and recreational management measures consistent with the modified Stock Annual Catch Limit. These actions are proposed in response to the results from the 2011 Greater Amberjack Stock Assessment which determined the stock is both overfished (population is too low) and undergoing overfishing (rate of removals too high). To achieve the reductions in the Stock Annual Catch Limit the Council is looking at changes to the current recreational minimum size limit and fixed closed seasons. For the commercial sector the Council is looking at adding trip limits and potentially removing the fixed closed season.

Spiny Lobster Amendment 11

The Gulf Council is holding two public hearings on Amendment 11 in the Florida Keys. The purpose of Amendment 11 to the Spiny Lobster Fishery Management Plan is protect threatened and endangered species in a manner that complies with measures established in the 2009 biological opinion and meets the requirements of the Endangered Species Act. The Gulf of Mexico and South Atlantic Fishery Management Councils are considering the following two actions to achieve these goals: (1) Closing areas to either all spiny lobster fishing or the lobster trap fishery to protect threatened corals and (2) Requiring gear markings for spiny lobster trap lines to allow identification of trap lines entangling protected species.

The Public Hearings will begin at 6 p.m. and conclude at the end of public testimony or no later than 9 p.m. at the following locations:
