Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: 2004-2006 National Survey on Drug Use and Health: Methodological Field Tests—New—The National Survey on Drug Use and Health (NSDUH), formerly the National Household Survey on Drug Abuse (NHSDA), is a survey of the civilian, noninstitutionalized population of the United States 12 years of age and older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal

government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

This will be a request for generic approval for information collection for NSDUH methodological field tests designed to examine the feasibility, quality, and efficiency of new procedures or revisions to the existing survey protocol. These field tests will examine ways to increase data quality, lower operating costs, and gain a better understanding of various sources of nonsampling error. If these tests provide successful results, current procedures may be revised and incorporated into the main study (e.g., questionnaire changes). Particular attention will be

given to minimizing the impact of design changes so that survey data continue to remain comparable over time.

Field test activities are expected to include validating new questions on depression; examining data reliability through the use of test-retest procedures; improving response rates among persons residing in controlled access communities (locked apartment buildings, gated communities, college dormitories, etc.), persons aged 50 or over, and other hard-to-reach populations; and conducting a nonresponse follow-up study. Cognitive laboratory testing will be conducted prior to the implementation of significant questionnaire modifications.

These questionnaire modifications will also be pre-tested and the feasibility of text-to-speech software determined. To understand the effectiveness of the current monetary incentive, a new incentive study will be conducted with varying incentive amounts. The relationship between incentives and veracity of reporting will also be examined. Lastly, there will be a test to determine the feasibility of selecting a maximum of three persons per dwelling unit instead of two (triad sampling). Some of the above studies may be combined to introduce survey efficiencies.

The average annual burden associated with these activities over a three-year period is summarized below.

Activity	Number of respondents	Responses per respondent	Average burden per response (in hrs.)	Total burden (hrs.)
a. Reliability/depression module validity study	667	2	1.5	2,000
b. Improving participation among controlled access and 50+ population, and other hard-to-reach populations	417	1	1.0	417
c. Nonresponse follow-up	417	1	1.0	417
d. Incentive/validity study	417	1	1.0	417
e. Cognitive laboratory testing	167	1	1.0	167
f. Annual questionnaire pre-test	333	1	1.0	333
g. Text-to-speech software for voices in computer-assisted interviewing	83	1	1.0	83
h. Triad sampling	333	1	1.0	333
Household screening for a-d, f, and h	7,167	1	0.083	595
Screening Verification for a-d, f, and h	217	1	0.067	15
Interview Verification for a-d, f, and h	400	1	0.067	27
Total	10,617			4,803

Fiscal Year (FY) 2004 Funding Opportunity

ACTION: Notice of funding availability (NOFA) for Statewide Consumer Network Grants.

Authority: Section 520 A of the Public Health Service Act, as amended and subject to the availability of funds.

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS), announces the availability of FY 2004 funds for Statewide Consumer Network Grants. A synopsis of this funding opportunity, as well as many other Federal Government funding opportunities, is also available at the Internet site: <http://www.grants.gov>.

For complete instructions, potential applicants must obtain a copy of the revised standard Infrastructure Grants Program Announcement [INF-04 PA (MOD)], and the PHS 5161-1 (Rev. 7/00) application form before preparing and submitting an application. The INF-04 PA (MOD) describes the general program design and provides instructions for applying for all SAMHSA Infrastructure Grants, including Statewide Consumer Network Grants. Additional instructions and requirements specific to Statewide Consumer Network Grants are described below.

Funding Opportunity Title: Statewide Consumer Network Grants (Short Title: Statewide Consumer Networks).

Announcement Type: Modification.

Funding Opportunity Number: SM 04-003.

Catalog of Federal Domestic Assistance (CFDA) Number: 93.243.

Due Date for Applications: April 7, 2004. You will be notified by postal mail that your application has been received.

[**Note:** Letters from State Single Point of Contact (SPOC) in response to E.O. 12372 are due May 7, 2004.]

Funding Instrument: Grant.

Funding Opportunity Description:

This is a republication of the Substance Abuse and Mental Health Services Administration's Notice of Funding Availability SM 04-003. The purpose of this republication is to revise the criteria used to screen out applications from peer review. These revised criteria are consistent with the standard grant announcement for Infrastructure Grants INF-04 PA (MOD).

These revisions can be found in this document, in their entirety, in the
