Production under FTZ procedures could exempt MHWI from customs duty payments on the foreign status components used in export production. On its domestic sales, MHWI would be able to choose the duty rate during customs entry procedures that applies to offshore drilling risers, telescopic joints, test equipment and tools (free) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: Rubber seals/o-rings/composite sheets; anodes; riser tool elastomers/test plugs/cylinders; riser telescopic joint packers/sleeves; riser fins; Kevlar straps; riser joint piping protectors; fasteners (bolts, screws, nuts, lock washers); riser fin bolt tensioners; hydraulic pipe/receptacles; choke and kill line receptacles; booster receptacles; riser clip connectors; steel pins; welding wire rods; and, paper documents (duty rate ranges from free to 9.0%).

#### Foreign-Trade Zone (FTZ) 7— Mayaguez, Puerto Rico; Notification of Proposed Production Activity; IPR Pharmaceuticals, Inc. (Pharmaceutical Products); Canóvanas, Puerto Rico

The Puerto Rico Industrial Development Company, grantee of FTZ

7, submitted a notification of proposed production activity to the FTZ Board on behalf of IPR Pharmaceuticals, Inc. (IPR), located within FTZ 7, in Canóvanas, Puerto Rico. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 3, 2014.

IPR already has authority to produce certain pharmaceutical products, including Crestor® tablets, a treatment to lower cholesterol. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt IPR from customs duty payments on the microcrystalline cellulose used in export production. On its domestic sales, IPR would be able to choose the duty rates during customs entry procedures that apply to its finished Crestor® and other pharmaceutical products (duty free) for the foreign-status input, microcrystalline cellulose (duty rate, 5.2%). Customs duties also could possibly be deferred or reduced on foreign status production equipment.
