

Institution and settlement of administrative proceedings; Adjudicatory matters; and Other matters relating to enforcement proceedings.

At times, changes in Commission priorities require alterations in the scheduling of meeting items.

For further information and to ascertain what, if any, matters have been added, deleted or postponed; please contact Brent J. Fields from the Office of the Secretary at (202) 551-5400.

Dated: July 20, 2017.

Brent J. Fields,

Secretary.

BILLING CODE 8011-01-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Aircraft Certification Service Organizational Changes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: This notice informs the American public and aviation industry of organizational changes in the Aircraft Certification Service (AIR) of the FAA Aviation Safety Office (AVS). AIR is eliminating product directorates, and will be composed of six functional divisions: The Organizational Performance Division (AIR-300), the International Division (AIR-400), the Policy and Innovation Division (AIR-600), the Compliance and Airworthiness Division (AIR-700), the System Oversight Division (AIR-800) and the Enterprise Operations Division (AIR-900).

FOR FURTHER INFORMATION CONTACT: The Organizational Performance Division (AIR-300), Aircraft Certification Service, Federal Aviation Administration, 1200 District Avenue, Burlington, MA 01803; telephone (781) 238-7101; email 9-AVS-AIR300@faa.gov.

SUPPLEMENTARY INFORMATION: AIR is transitioning to a functionally aligned organizational structure on July 23, 2017. AIR's functional realignment will establish an infrastructure that will enable a comprehensive approach to becoming more efficient and effective known as "AIR Transformation." As a result of realignment, all product directorates will be eliminated and replaced with functional divisions. Field offices will be realigned under new routing codes, but will stay intact

and continue to provide the public the same service they do today. For further details on this reorganization, please refer to http://www.faa.gov/about/office_org/headquarters_offices/avs/offices/air/transformation/ and https://www.faa.gov/news/fact_sheets/news_story.cfm?newsId=21315.

You can obtain more information on the new AIR organization and the responsibilities and functions of the AIR divisions in FAA Order 8100.5C, "Aircraft Certification Service—Organizational Structure and Functions." AIR also created a new order, FAA Order 8100.18, "Aircraft Certification Service Organizational Realignment References," to facilitate the use of existing AIR policy and guidance under the functionally aligned organization. These orders are available online at https://www.faa.gov/regulations_policies/orders_notices/. All AIR-issued advisory circulars, orders, notices, and other guidance will remain in effect until revised, changed, or deleted.

Dorenda D. Baker,

Executive Director, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2017-0020]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemptions; request for comments.

SUMMARY: FMCSA announces receipt of applications from 11 individuals for exemption from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. If granted, the exemptions will enable these individuals to operate CMVs in interstate commerce without meeting the vision requirement in one eye.

DATES: Comments must be received on or before August 24, 2017.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket No. FMCSA-2017-0020 using any of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov>. Follow the

online instructions for submitting comments.

- **Mail:** Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

- **Hand Delivery:** West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal Holidays.

- **Fax:** 1-202-493-2251.

Instructions: Each submission must include the Agency name and the docket numbers for this notice. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below for further information.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays. The FDMS is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments on-line.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to <http://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <http://www.dot.gov/privacy>.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are 8:30 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366-9826.

SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from

the Federal Motor Carrier Safety Regulations for a two-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” FMCSA can renew exemptions at the end of each two-year period.

The 11 individuals listed in this notice have each requested such an exemption from the vision requirement in 49 CFR 391.41(b)(10). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding vision found in 49 CFR 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person:

Has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal Meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber.

In July 1992, the Agency first published the criteria for the Vision Waiver Program, which listed the conditions and reporting standards that CMV drivers approved for participation would need to meet (Qualification of Drivers; Vision Waivers, 57 FR 31458, July 16, 1992). The current Vision Exemption Program was established in 1998, following the enactment of amendments to the statutes governing exemptions made by § 4007 of the Transportation Equity Act for the 21st Century (TEA–21), Public Law 105–178, 112 Stat. 107, 401 (June 9, 1998). Vision exemptions are considered under the procedures established in 49 CFR part 381 subpart C, on a case-by-case basis upon application by CMV drivers who do not meet the vision standards of 49 CFR 391.41(b)(10).

To qualify for an exemption from the vision requirement, FMCSA requires a person to present verifiable evidence that he/she has driven a commercial vehicle safely with the vision deficiency for the past three years. Recent driving performance is especially important in evaluating future safety, according to several research studies designed to correlate past and future driving performance. Results of these studies support the principle that the best predictor of future performance by a driver is his/her past record of crashes

and traffic violations. Copies of the studies may be found at Docket Number FMCSA–1998–3637.

FMCSA believes it can properly apply the principle to monocular drivers, because data from the Federal Highway Administration’s (FHWA) former waiver study program clearly demonstrated the driving performance of experienced monocular drivers in the program is better than that of all CMV drivers collectively (See 61 FR 13338, 13345, March 26, 1996). The fact that experienced monocular drivers demonstrated safe driving records in the waiver program supports a conclusion that other monocular drivers, meeting the same qualifying conditions as those required by the waiver program, are also likely to have adapted to their vision deficiency and will continue to operate safely.

The first major research correlating past and future performance was done in England by Greenwood and Yule in 1920. Subsequent studies, building on that model, concluded that crash rates for the same individual exposed to certain risks for two different time periods vary only slightly (See Bates and Neyman, University of California Publications in Statistics, April 1952). Other studies demonstrated theories of predicting crash proneness from crash history coupled with other factors. These factors—such as age, sex, geographic location, mileage driven and conviction history—are used every day by insurance companies and motor vehicle bureaus to predict the probability of an individual experiencing future crashes (See Weber, Donald C., “Accident Rate Potential: An Application of Multiple Regression Analysis of a Poisson Process,” Journal of American Statistical Association, June 1971). A 1964 California Driver Record Study prepared by the California Department of Motor Vehicles concluded that the best overall crash predictor for both concurrent and nonconcurrent events is the number of single convictions. This study used three consecutive years of data, comparing the experiences of drivers in the first two years with their experiences in the final year.

II. Qualifications of Applicants

Michael T. Allen

Mr. Allen, 58, has had amblyopia in his right eye since childhood. The visual acuity in his right eye is 20/60, and in his left eye, 20/20. Following an examination in 2017, his optometrist stated, “It is my professional opinion that Michael Allen has sufficient vision to perform the driving tasks required to

operate a commercial vehicle.” Mr. Allen reported that he has driven buses for five years, accumulating 312,500 miles. He holds a Class B CDL from Arizona. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Robert F. Anneheim

Mr. Anneheim, 48, has had amblyopia in his right eye since birth. The visual acuity in his right eye is 20/100, and in his left eye, 20/20. Following an examination in 2017, his optometrist stated, “It is therefore my opinion that Mr. Anneheim has excellent vision and is able to operate any vehicle he choses [sic] to for commercial and personal purposes.” Mr. Anneheim reported that he has driven straight trucks for 20 years, accumulating 400,000 miles. He holds an operator’s license from North Carolina. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Ray C. Atkinson

Mr. Atkinson, 64, has had a retinal detachment in his left eye since 2011. The visual acuity in his right eye is 20/20, and in his left eye, no light perception. Following an examination in 2017, his ophthalmologist stated, “. . . Mr. Atkinson’s vision is sufficient to operate a commercial vehicle.” Mr. Atkinson reported that he has driven straight trucks for 47 years, accumulating 2.44 million miles. He holds a Class A CDL from Tennessee. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Joseph Cuthbert

Mr. Cuthbert, 56, has had amblyopia in his right eye since birth. The visual acuity in his right eye is counting fingers, and in his left eye, 20/20. Following an examination in 2016, his optometrist stated, “Overall, I feel that Mr. Cuthbert is doing quite well and in my medical opinion has sufficient vision to perform the driving tasks required to operate a commercial vehicle.” Mr. Cuthbert reported that he has driven straight trucks for 40 years, accumulating 240,000 miles. He holds an operator’s license from Pennsylvania. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Kent W. Fulp

Mr. Fulp, 48, has had pars planitis in his right eye since 2008. The visual

acuity in his right eye is 20/50, and in his left eye, 20/20. Following an examination in 2017, his ophthalmologist stated, "Mr. Fulp has adequate vision to perform the driving tasks to operate a commercial vehicle." Mr. Fulp reported that he has driven straight trucks for 30 years, accumulating 300,000 miles and tractor-trailer combinations for 30 years, accumulating 300,000 miles. He holds a Class A CDL from North Carolina. His driving record for the last three years shows one crash and no convictions for moving violations in a CMV.

Edward P. Hutton

Mr. Hutton, 60, has had amblyopia in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, counting fingers. Following an examination in 2017, his ophthalmologist stated, "His OS is amblyopic and lifelong. If he has performed well as a commercial driver in the past, he should continue to do so." Mr. Hutton reported that he has driven straight trucks for 14 years, accumulating 175,000 miles. He holds a Class A CDL from Idaho. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Stephen McLaren

Mr. McLaren, 33, has had amblyopia in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, 20/80. Following an examination in 2016, his optometrist stated, "Based on today's examination, it is my opinion that Stephen McLaren's refractive amblyopia in the left eye is stable and will not prevent him from driving tasks necessary to operate a commercial vehicle." Mr. McLaren reported that he has driven straight trucks for five years, accumulating 36,000 miles. He holds a Class B CDL from Tennessee. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Robert E. Richards

Mr. Richards, 31, has had amblyopia in his right eye since birth. The visual acuity in his right eye is 20/100, and in his left eye, 20/20. Following an examination in 2017, his optometrist stated, "In my medical opinion Mr. Richards has sufficient vision to perform the driving tasks required to operate a commercial vehicle and his visual deficiency is stable." Mr. Richards reported that he has driven straight trucks for two years, accumulating 50,000 miles, and tractor-trailer combinations for 11 years,

accumulating 880,000 miles. He holds a Class A CDL from Maine. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

James R. Robinette

Mr. Robinette, 25, has had amblyopia in his right eye since childhood. The visual acuity in his right eye is 20/200, and in his left eye, 20/20. Following an examination in 2017, his optometrist stated, "Based on these findings, Mr. Robinette has sufficient vision to operate a commercial vehicle." Mr. Robinette reported that he has driven straight trucks for four years, accumulating 3,120 miles. He holds a Class B CDL from Virginia. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

James Tucker

Mr. Tucker, 57, has a prosthetic left eye due to a traumatic incident in childhood. The visual acuity in his right eye is 20/20, and in his left eye, no light perception. Following an examination in 2017, his optometrist stated, "It is our opinion that your visual abilities are adequate for driving a commercial vehicle." Mr. Tucker reported that he has driven straight trucks for three years, accumulating 63,000 miles. He holds a Class A CDL from Tennessee. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Alvin White

Mr. White, 61, has an enucleated left eye due to a traumatic incident in childhood. The visual acuity in his right eye is 20/15, and in his left eye, no light perception. Following an examination in 2017, his optometrist stated, "It is my opinion that Mr. Alvin White has sufficient vision to perform the driving tasks required to operate a commercial vehicle." Mr. White reported that he has driven straight trucks for six years, accumulating 60,000 miles and tractor-trailer combinations for six years, accumulating 600 miles. He holds a Class A CDL from Tennessee. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

III. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments and material received before the close of business on the closing date

indicated in the dates section of the notice.

IV. Submitting Comments

You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA-2017-0020 and click the search button. When the new screen appears, click on the blue "Comment Now!" button on the right hand side of the page. On the new page, enter information required including the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

We will consider all comments and material received during the comment period. FMCSA may issue a final determination at any time after the close of the comment period.

V. Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble, go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA-2017-0020 and click "Search." Next, click "Open Docket Folder" and you will find all documents and comments related to this notice.

Issued on: July 18, 2017.

Larry W. Minor,

Associate Administrator for Policy.
