Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

ACTION: Notice of Availability of DRAFT
NPDES General Permits MAG910000
and NHG910000.

SUMMARY: The Director of the Office of
Ecosystem Protection, U.S.
Environmental Protection Agency—
Region 1 (EPA), is providing a notice of
availability of draft National Pollutant
Discharge Elimination System (NPDES)
general permits for discharges from sites
engaged in certain remediation activities
to certain waters of the Commonwealth
of Massachusetts and the State of New
Hampshire. The draft NPDES general
permits establish Notice of Intent (NOI),
Notice of Change (NOC), and Notice of
Termination (NOT) requirements,
effluent limitations and requirements,
standard and special conditions and
best management practice (BMP)
requirements for sites that discharge 1.0
million gallons per day or less in
Massachusetts and New Hampshire.
These general permits replace the
Remediation General Permit (RGP) that
expired on September 9, 2015.

DATES: Comment on the draft general
permits must be received on or before
September 19, 2016.

Public Hearing Information: EPA will
hold a public hearing, if necessary, in
accordance with 40 CFR 124.12 and will
provide interested parties with the
opportunity to provide written and/or
oral comments for the official
administrative record.

ADDRESSES: Comments on the draft RGP
shall be submitted by one of the
following methods: (1) Email:
little.shauna@epa.gov; or (2) Mail: U.S.
EPA Region 1, Attn: Shauna Little, 5
Post Office Square, Suite 100, Mail Code
OEP06–4, Boston, MA 02109–3912. No
facsimiles (faxes) will be accepted.

The draft RGP is based on an
administrative record available for
public review at EPA–Region 1, Office

of Ecosystem Protection, 5 Post Office
Square, Suite 100, Boston,
Massachusetts 02109–3912. A
reasonable fee may be charged for
copying requests. The fact sheet for the

considered in the development of the
draft general permit and is available
upon request. A brief summary is
provided as supplementary information
below.

FOR FURTHER INFORMATION CONTACT:

Additional information concerning the
draft general permits may be obtained

email: little.shauna@epa.gov.

SUPPLEMENTARY INFORMATION:

General Information: EPA is
proposing to reissue two general permits
for discharges from sites engaged in
remediation activities from eight general
categories: (1) Petroleum-related site
remediation; (2) Non-petroleum-related
site remediation; (3) Contaminated/
formerly contaminated site dewatering;
(4) Pipeline and tank dewatering; (5)
Aquifer pump testing; (6) Well
development/rehabilitation; (7)
Dewatering/remediation of collection
structures; and (8) Dredge-related
dewatering. While the draft general
permits are two distinct permits, for
convenience, EPA has grouped them
together in a single document and has
provided a single fact sheet. This
document refers to the draft general
“permit” in the singular. The draft
general permit, appendices and fact
sheet are available at: [http://
www.epa.gov/region1/npdes/rgp.html](http://www.epa.gov/region1/npdes/rgp.html).
The draft general permit includes
effluent limitations and requirements
based on technology-based
considerations, best professional
judgment (BPJ), and water quality
considerations. The effluent limits
established in the draft general permit
assure that the surface water quality
standards of the receiving water(s) are
attained and/or maintained. The permit
also contains BMP requirements in
order to ensure EPA has the information
necessary to ensure compliance and to
ensure discharges meet water quality
standards.

Obtaining Authorization: In order to
obtain authorization to discharge,
operators must submit a complete and
accurate NOI containing the information
in Appendix IV—Part 1 of the draft
general permit. Operators with existing

discharges must submit a NOI within 90
days of the effective date of the final
general permit. Operators with new
discharges must submit a NOI at least 30
days prior to initiating discharges and
following the effective date of the final
general permit. The effective date of the
final general permit will be specified in
the **Federal Register** publication of the
Notice of Availability of the final
permit. Operators must meet the
eligibility requirements of the general
permit prior to submission of a NOI. An
operator will be authorized to discharge
under the general permit upon receipt of
written notice from EPA following
EPA’s web posting of the submitted
NOI. EPA will authorize the discharge,
request additional information, or
require the operator to apply for an
alternative permit or an individual
permit.

Other Legal Requirements:

Endangered Species Act (ESA): EPA has
updated the provisions and necessary
actions and documentation related to
potential impacts to endangered species
from facilities seeking coverage under
the RGP. EPA has requested
concurrence from the appropriate
federal services (U.S. Fish and Wildlife
Service and National Marine Fisheries
Service) in connection with this draft
general permit.

**National Historic Preservation Act
(NHPA):** In accordance with NHPA,
EPA has established provisions and
documentation requirements for sites
seeking coverage under the RGP to
ensure that discharges or actions taken
under this general permit will not
adversely affect historic properties and
places.

Authority: This action is being taken under
the Clean Water Act, 33 U.S.C. 1251 *et seq.*

Dated: August 9, 2016.
