

to a qualified consumer is raised from 3% to 5%; and

4. recurring service bills were added as approved methods of repayment of RESP loans by Qualified consumers to RESP borrowers (the previous statutory language only allowed repayment through the electric service bill).

5. Additionally, the 2018 Farm Bill included new legislative language that directs the Agency not to consider any debt incurred by a borrower under this program in the calculation of the debt-equity ratio of the borrower for purposes of eligibility for loans under the Rural Electrification Act of 1936 (7 U.S.C. 901 *et seq.*).

All new and pending RESP letters of intent as well as all new and pending RESP loan applications will be reviewed consistent with the new statutory provisions. Requests to modify previously approved RESP loan agreements consistent with the new statutory provisions and other relevant law will be considered on a case-by-case basis where RESP funds have not been advanced.

Applicants may amend their application and reapply if they were denied under the existing NOFA of August 6, 2018 (83 FR 38273) or not invited to proceed in the application process if the new statutory provisions apply to their energy efficiency proposal. Such amendments will not interrupt continued acceptance of applications. The current NOFA provided for a first come, first served process, and this process will continue, and any reapplications will move into line with the reapplication date.

In the **Federal Register** on August 6, 2018 (83 FR 38273) make the following correction:

Summary of Changes

1. On page 38275, in the second column, under section A. Program Description, revise the fourth sentence to read as follows:

Loans made by RESP borrowers under this program may be repaid through charges added to the Qualified consumer's recurring service bill for the property or properties for, or at which, energy efficiencies are or will be implemented.

2. On page 38279, in the second column, under d. EE Program Compliance, second paragraph, revise the second sentence to read as follows:

Nonetheless, under no circumstances will the RESP borrower be able to charge more than 5 percent interest rate to its customers.

3. On page 38279, in the second column, under section d. EE Program

Compliance, revise the first sentence in the third paragraph to read as follows:

Qualified consumers must ordinarily repay their loans to the RESP borrower through charges added by the RESP borrower to the consumer's recurring service bill associated with the property where the energy efficiency measures are or will be implemented.

4. On page 38280, in the second column, under the B. Variable frequency drive section, revise (ix) to read as follows:

Efficient cost-effective on- or off-grid renewable energy systems if consistent with the statutory purpose of RESP.

5. On page 38280, in the second column, under B. Variable frequency drive section, revise (x) to read as follows:

Efficient cost-effective energy storage systems if permanently installed to reduce the energy cost or usage of small businesses and families within a rural area.
