

duties on entries of merchandise covered by this review and for future deposits of estimated duties, where applicable.<sup>11</sup>

Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for each importer's examined sales and the total entered value reported for those sales. Where the respondent did not report entered value, we calculated a per-unit assessment rate for each importer by dividing the total amount of dumping calculated for the examined sales made to that importer by the total quantity associated with those sales. To determine whether an importer-specific, per-unit assessment rate is *de minimis*, in accordance with 19 CFR 351.106(c)(2), we also calculated an importer-specific *ad valorem* ratio based on estimated entered values. Where either the respondent's weighted-average dumping margin is zero or *de minimis*, within the meaning of 19 CFR 351.106(c)(1), or an importer-specific rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For entries of subject merchandise during the POR produced by the respondents for which they did not know that the merchandise was destined for the United States, we will instruct CBP to liquidate entries not reviewed at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.<sup>12</sup> For the company which was not selected for individual examination, we will instruct CBP to assess antidumping duties at an *ad valorem* assessment rate equal to the dumping margin identified for Prosperity Tieh (*i.e.*, the only rate calculated in this review which is not zero, *de minimis*, or based entirely on facts available), in the "Final Results of Review" section, above.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

### Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of administrative review for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on, or after, the publication date of the final results of review, as provided for by section 751(a)(2)(C) of the Act: (1) the cash deposit rates for the companies identified above in the "Final Results of Review" section will be equal to the company-specific weighted-average dumping margin established in the final results of this administrative review; (2) for merchandise exported by producers or exporters not covered in this review but covered in a prior completed segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the producer has been covered in a prior complete segment of this proceeding, then the cash deposit rate will be the rate established for the most recent period for the producer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 11.04 percent,<sup>13</sup> the all-others rate from the *Third Amended Final Determination*. These cash deposit requirements, when imposed, shall remain in effect until further notice.

### Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

### Administrative Protective Order

This notice also serves as the final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely

written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

### Notification to Interested Parties

We are issuing and publishing this notice in accordance with sections 751(a)(l) and 777(i)(l) of the Act, 19 CFR 351.221(b)(5).

Dated: May 1, 2025.

**SUPPLEMENTARY INFORMATION:** The meeting is open to the public via webinar as it occurs. Webinar registration is required. Information regarding webinar registration is available from the Council's website at: <https://safmc.net/scientific-and-statistical-committee-meeting/>. The meeting agenda, briefing book materials, and online comment form will be posted to the Council's website two weeks prior to the meeting. Written comment on SSC agenda topics is to be distributed to the Committee through the Council office, similar to all other briefing materials. For this meeting, the deadline for submission of written comment is 5 p.m. EDT May 28, 2025.

The meeting agenda includes a review of the Southeast Data, Assessment, and Review (SEDAR) 92: Atlantic Blueline Tilefish Stock Assessment, the SEDAR 76 Update: South Atlantic Black Sea Bass catch level projections, and the terms of reference for the 2026 gag grouper stock assessment. The SSC will receive an update on the SEDAR process changes and conduct other business as needed. The SSC will provide guidance to staff and make recommendations for Council consideration.

#### Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) 5 days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

#### Endangered and Threatened Species; Take of Anadromous Fish

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability.

**SUMMARY:** Notice is hereby given that the Washington Department of Fish and Wildlife (WDFW) and Oregon Department of Fish and Wildlife (ODFW) have provided Hatchery and Genetic Management Plans (HGMPs) pursuant to the protective regulations promulgated for Pacific salmon and steelhead under the Endangered Species Act (ESA). The HGMPs include the Big Creek Chum, Washougal winter steelhead (Skamania stock), Grays River Tule conservation, and the Abernathy Tule conservation programs. This document serves to notify the public of the availability of these HGMPs for comment prior to a decision by NMFS on whether to approve the proposed hatchery programs.

**DATES:** Comments must be received at the appropriate address (see **ADDRESSES**) no later than 5:00 p.m. Pacific time on June 6, 2025. Comments received after this date may not be considered.

**ADDRESSES:** Written responses to the addendum should be addressed to the NMFS Sustainable Fisheries Division, 1201 NE Lloyd Blvd., Suite 1100, Portland, OR 97232. Comments may be submitted by email. The mailbox address for providing email comments is: [Hatcheries.Public.Comment@noaa.gov](mailto:Hatcheries.Public.Comment@noaa.gov). Include in the subject line of the email comment the following identifier: Comments on Big Creek Chum, Washougal winter steelhead (Skamania stock), Grays River Tule conservation, and the Abernathy Tule conservation programs.

**FOR FURTHER INFORMATION CONTACT:** Natasha Preston at (503) 320-4997 or by email at [natasha.preston@noaa.gov](mailto:natasha.preston@noaa.gov).

#### SUPPLEMENTARY INFORMATION:

#### Background

The HGMPs submitted by WDFW and ODFW include the Big Creek Chum, Washougal winter steelhead (Skamania stock), Grays River Tule conservation, and the Abernathy Tule conservation programs. The HGMPs were submitted to NMFS for review under ESA Limit 5 of the 4(d) Rule. The HGMPs describe broodstock collection, incubation, rearing, release, and monitoring and evaluation.

The Big Creek chum program was submitted by ODFW. It has a prior 4(d) authorization of producing 300k chum salmon. This HGMP is proposing a new goal of releasing 1,690,000 chum salmon. WDFW submitted the three conservation hatchery programs (Washougal winter steelhead, Grays River Tule, and Abernathy Tule), as part of the updated Mitchell Act Endangered Species Act (ESA) Section 7(a)(2) Biological Opinion and Magnuson-

Stevens Fishery Conservation and Management Act Essential Fish Habitat (EFH) Consultation (2024). All HGMPs are designed to aid in conserving their populations across the Evolutionary Significant Unit and/or Distinct Population Segment range. The programs use adaptive management procedures and the best available science to reduce adverse genetic effects and lessen competition and predation impacts typically associated with salmon and steelhead hatchery programs.

Prior to approving an HGMP under limit 5 of the 4(d) Rule, NMFS must publish notification announcing the availability of the HGMP for public review and comment.
