A. Overview of Information Collection

Title of Information Collection:
Multifamily Accelerated Processing
(MAP) Guide.

OMB Approval Number: 2502-0541.

OMB Expiration Date: December 31,
2020.

Type of Request: Revision.
Form Number: Guidebook 4430.G.

*Description of the need for the
information and proposed use:*
Multifamily Accelerated Processing
(MAP) is designed to establish uniform
national standards for Federal Housing
Administration (FHA) approved lenders
to prepare, process and submit loan
applications for FHA multifamily
mortgage insurance. The MAP Guide
provides—in one volume with
appendices—guidance for HUD staff,
lenders, third party consultants,
borrowers, and other industry
participants. Topics include mortgage
insurance program descriptions,
borrower and lender eligibility
requirements, application requirements,
underwriting standards for all technical
disciplines and construction loan
administration requirements. The MAP
Guide applies only to FHA multifamily
mortgage insurance programs. Except to
the extent lender monitoring or
enforcement activities overlap, Section
232 and other programs administered by
the Office of Healthcare Programs are
not addressed by the MAP Guide.

The Guide has been updated to reflect
various organizational, policy and
processing changes implemented since
the last edition was published in 2016.
Examples include electronic submission
of data in a standardized format, the
consolidation of HUD Field Offices to
Regional Centers and Satellite Offices,
workload sharing, and a “risk-based”
underwriting approach. The goal of
MAP is to provide a consistent,
expedited mortgage insurance
application process at each HUD
Multifamily Regional Center or Satellite
Office. All MAP eligible projects must
be submitted using MAP processing

unless a waiver is granted to process
under Traditional Application
Processing (TAP). Such waiver approval
authority is retained by HUD
Headquarters’ Director of Multifamily
Production. Additionally, two new
chapters were added to this edition of
the Guide: The “*Water and Energy
Conservation*” chapter and the “*Closing
Guide*”.
