

electric power generator in Shelby County, Alabama.

On October 28, 2022, the Federal Energy Regulatory Commission (FERC or Commission) issued a *Notice of Intent* (NOI) which identified August 4, 2023 as the issuance date for the final Environmental Impact Statement (EIS). However, Commission staff now intends to prepare an Environmental Assessment (EA) for the Project and has therefore revised the planned schedule for the completion of the environmental review.¹

The October 28, 2022 NOI announced the opening of a 30-day scoping period which closed on November 28, 2022. Commission staff will consider the information gathered and comments received during scoping in the preparation of the EA; interested stakeholders do not need to resubmit comments previously submitted. Commission staff will make the EA available for public review and inspection, and solicit comments on the document from the public. The Commission will review and consider any future comments received on the EA in its consideration of the Project.

This notice identifies the revised schedule for completion of the EA for Transco's Project.

Schedule for Environmental Review

Issuance of the EA March 24, 2023
90-day Federal Authorization Decision
Deadline² June 22, 2023

If a schedule change becomes necessary, an additional notice will be provided so that the relevant agencies are kept informed of the project's progress.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Additional information about the Project is available from the

Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP22-501), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: January 27, 2023.

[Project No. 5912-003]

Town of Dover-Foxcroft; Notice of Effectiveness of Withdrawal of Application for Amendment of Exemption

On November 23, 2020, the Town of Dover-Foxcroft (Maine) filed an application for amendment of the exemption for the 300-kilowatt Moosehead Hydroelectric Project No. 5912. On December 30, 2022, the Town of Dover-Foxcroft filed a request to withdraw its application.

No motion in opposition to the request for withdrawal has been filed, and the Commission has taken no action to disallow the withdrawal. Pursuant to Rule 216(b) of the Commission's Rules of Practice and Procedure,¹ the withdrawal of the application became effective on January 16, 2023,² and this proceeding is hereby terminated.

Dated: January 30, 2023.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

¹ 18 CFR 385.216(b) (2021).

² The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.

² The Commission's Rules of Practice and Procedure provide that if a deadline falls on a Saturday, Sunday, holiday, or other day when the Commission is closed for business, the deadline does not end until the close of business on the next business day. 18 CFR 385.2007(a)(2) (2021).

[Docket No. CP23-14-000]

Wyoming Interstate Company, LLC; Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Diamond Mountain Compressor Station Abandonment Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document, that will discuss the environmental impacts of the Diamond Mountain Compressor Station Abandonment Project (Project) involving abandonment of facilities by Wyoming Interstate Company, LLC (WIC) in Uintah County, Utah. The Commission will use this environmental document in its decision-making process to determine whether the Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the Project. As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. This gathering of public input is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. Additional information about the Commission's NEPA process is described below in the *NEPA Process and Environmental Document* section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the environmental document. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on February 27, 2023. Comments may be submitted in written form. Further details on how to submit comments are provided in the *Public Participation* section of this notice.

Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts.
