SUPPLEMENTARY INFORMATION:

Regulations Schedule for 2010

On May 13, 2010, we published in the **Federal Register** (75 FR 27144) a proposal to amend 50 CFR part 20. The proposal provided a background and

overview of the migratory bird hunting regulations process, and addressed the establishment of seasons, limits, and other regulations for hunting migratory game birds under §§ 20.101 through 20.107, 20.109, and 20.110 of subpart K. Major steps in the 2010-11 regulatory cycle relating to open public meetings and **Federal Register** notifications were also identified in the May 13 proposed rule. Further, we explained that all sections of subsequent documents outlining hunting frameworks and guidelines were organized under numbered headings. Subsequent documents will refer only to numbered items requiring attention. Therefore, it is important to note that we omit those items requiring no attention, and remaining numbered items might be discontinuous or appear incomplete.

On June 10, 2010, we published in the **Federal Register** (75 FR 32872) a second document providing supplemental proposals for early- and late-season migratory bird hunting regulations. The June 10 supplement also provided information on the 2010-11 regulatory schedule and announced the Service Regulations Committee (SRC) and summer Flyway Council meetings.

On June 23 and 24, 2010, we held open meetings with the Flyway Council Consultants where the participants reviewed information on the current status of migratory shore and upland game birds and developed recommendations for the 2010-11 regulations for these species plus regulations for migratory game birds in Alaska, Puerto Rico, and the Virgin Islands, special September waterfowl seasons in designated States, special sea duck seasons in the Atlantic Flyway, and extended falconry seasons. In addition, we reviewed and discussed preliminary information on the status of waterfowl as it relates to the development and selection of the regulatory packages for the 2010-11 regular waterfowl seasons.

On July 29, 2010, we published in the **Federal Register** (75 FR 44856) a third document specifically dealing with the proposed frameworks for early-season regulations. We published the proposed frameworks for late-season regulations (primarily hunting seasons that start after October 1 and most waterfowl seasons not already established) in an August 25, 2010, **Federal Register**.

This document is the fifth in a series of proposed, supplemental, and final rulemaking documents. It establishes final frameworks from which States may select season dates, shooting hours, and daily bag and possession limits for the 2010-11 season. These selections will be published in the **Federal Register** as
